EXAMINATION OF MASTERS AND MATES.

Instructions to Examiners and Notice to Candidates.

No. 120Marine.—Notification.—The Government of Bengal desire to draw the attention of candidates to the fact that for all certificates of competency as Master or Mate in the Mercantile Marine, the qualifying service usually required is service performed in ordinary trading vessels. While the regulations relating to the examination of Masters and Mates provide for the acceptance in part of certain kinds of non-trading service (*e.g.*, that performed in fishing boats, yachts, pilot vessels, &c.), non-trading service not specially provided for in the Regulations cannot be accepted as qualifying service unless it has been submitted to the Government of Bengal and their sanction obtained.

Service performed in War Department or Naval Ordnance vessels employed outside partially smooth water limits (see paragraph 125 of the Regulations) may be accepted as sea service to qualify a candidate for a Mate's or Master's Certificate for Home Trade Passenger Ships only. The service cannot be accepted towards qualifying a candidate for a Foreign-going Certificate unless there should be some very exceptional circumstances, when the case, together with all the candidate's papers, should be submitted to the Government of Bengal for their consideration.

Examiners are reminded that they should not allow any candidate to proceed with his examination until his service qualifications have been properly considered.

NOTIFICATION,

STATE SCHOLARSHIPS TENABLE IN ENGLAND BY EUROPEANS AND EURASIANS EDUCATED IN INDIA.

No. 15241.—The 26th Novem er 1912.—In the year 1907 His Majesty's Secretary of State for India sanctioned the institution of one scholarship of £200 per annum tenable at a European University to be awarded in each year to a member of the domiciled European and Eurasian community in India on the understanding that candidates belonging to this community should no longer be regarded as eligible for the two University State Scholarships at present granted to natives of India. *For the scholarship to be awarded in the year 1913 applications are now invited.*

2. The scholarship will entitle the holder to an allowance not exceeding £200 per annum payable from the date of his arrival in England and will be tenable for three or four years, as circumstances may require, at any University in the United Kingdom or, with the special sanction of the Government of India, at a foreign University. The candidate to whom the scholarship is awarded will be required to proceed to England within a reasonable period from the date of his selection, and to reside there for a period of three or four years, as the case may be, unless compelled to return sooner by ill-health. He will be provided with a free second class passage to England, and also with a free return passage if he completes the full period of residence or is compelled by sickness to return within that period.

3. The two main principles which govern the grant of the scholarship are—

(*i*) that as the object in view is to assist a domiciled European or Eurasian to go through a University course in England the scholarship will ordinarily be awarded to a young man at the close of his school career in India so that he may join the University at practically the same age as boys educated in England: the Government of India place the age limits at 18 to 21, *i.e.*, the candidate must have completed 18 years of age and not have completed 21 years on 31st March of the year in which the scholarship is awarded, and

(*ii*) the scholarship will be given to the candidate who is most likely to win distinction at the University.

4. The following rules are to be observed in regard to the form in which applications are to be submitted:—

(1) The application should ordinarily be in the handwriting of the applicant. In the exceptional case of his being out of India, the parent or guardian may submit an application.

(2) The application should give full details as to the applicant's age, family circumstances, the schools or colleges which he has attended, his studies, the distinctions he has gained, and the course of study he wishes to follow. Information should also be given as to—

(*a*) the University at which the candidate proposes to study and the reasons for selecting the particular University;

(*b*) the special aptitude, if any, which the candidate has shown for the kind of study which he proposes to pursue.

(3) The application should be accompanied by a birth certificate, a certificate from a commissioned officer of the Indian Medical Service testifying to the general health of the candidate and certifying that his physique is such that there is good prospect of the University course not being seriously interrupted by ill-health, and testimonials as to character and capacity. If original testimonials are not sent in, certified copies must be submitted. The testimonials should include—

(*a*) A certificate from the Principal of the institution last attended, stating that the applicant is of good moral

character and of active habits, and in the event of his having left school or college more than six months before the date of application, a certificate by a person of recognised position well acquainted with him, stating how he has been employed since he left school and certifying to his moral integrity.

(*b*) A certificate from some person of recognised position well acquainted with the candidate and his family, to the effect that he is a native of India within the meaning of Statute 33 Vict. Cap. 3, section 6, and that his parents are not resident in India for temporary purposes only.

5. The Director of Public Instruction will personally interview those applicants whose names he thinks worthy of submission to Government. If a personal interview is impossible (*e.g.*, owing to a candidate being absent from India), the fullest possible information should be given as to the physique and character of the candidate.

6. All applications for the scholarship to be awarded during the year 1913 should be submitted in the first instance to the Inspector of European Schools, Bengal, in time to reach the Director of Public Instruction on or before the 31st January 1913.

7. No application will be considered unless the applicant declares that the conditions of the scholarship as laid down in paragraphs 2 and 8 of this notification are known to him, and that he is prepared to abide by them.

8. The scholar will, on arrival in England, be required to bind himself by a written engagement to submit to the following rules, and to such other regulations as may from time to time be framed by His Majesty's Secretary of State for the guidance of scholars in England:—

(*a*) Every scholar shall, on reaching England, at once present himself to the Secretary, Judicial and Public Department, at the India Office, and report his arrival in writing.

(*b*) Every scholar shall, without any unnecessary delay, inform the Secretary of State to which University or College he is about to proceed, and shall at once take steps to enter himself thereat.

(*c*) Every scholar shall, at the end of each term of residence at a University, submit to the Secretary of State a certificate from the proper University or College authority showing that his residence, conduct and progress in study have been satisfactory during the term.

(*d*) Every scholar shall at all times obey such instructions as he may receive from the Secretary of State.

(*e*) Subject to a due compliance with the above conditions, the allowance, at the rate of £200 a year for three years, or four years, if so determined, will be paid quarterly, in advance, by the India Office, commencing from the date of the scholar's reporting his arrival in England.

(*f*) Every scholar will forfeit his scholarship who, not being disabled by illness or prevented by any other cause which the Secretary of State may consider sufficient, fails to complete the required terms of residence at a University or who is guilty of misconduct, persistent idleness, or disregard of the orders of the Secretary of State. If the scholarship be forfeited, the scholar will lose his claim to a free return passage to India and will further become liable to refund the cost of his free passage to England.

(*g*) The scholar will be under the supervision and charge of the Political A.-D.-C. to the Secretary of State, through whom the necessary orders will be given, and to whom all reports and other communications respecting him should be sent.

CALCUTTA, THE 25TH NOVEMBER 1912.

RESOLUTION No. 5881P.

THE circumstances connected with the accident which occurred on Tuesday, the 19th November last, to a dinghy employed on conveying passengers from the landing stage at Sibpur to one of the Port Commissioners' ferry steamers in the river Hooghly, and which resulted in a very deplorable

loss of life, has been engaging the serious attention of the Government. More particularly, the Governor in Council has had under consideration the means which can best be adopted in order to secure a complete elucidation of the actual facts, a thorough exposition of any defects which may be found in existing arrangements, and a careful statement of practical suggestions for remedying them.

The Commissioners of the Port of Calcutta have proposed that an independent Committee should be appointed by Government to enquire into the circumstances attending this accident, and Government is of opinion that the objects in view will be attained most satisfactorily by accepting their recommendation. The Governor in Council has accordingly decided to appoint a Committee consisting of the following gentlemen :—

The Hon'ble Mr. E. W. Collin, I.C.S., Officiating Member, Board of Revenue, L. P.	*President.*
Mr. J. C. K. Peterson	*Members.*
Commander C. J. C. Kendall, D.S.O., R.I.M., Port Officer	*Members.*
Babu Nando Lal Bagchi, Presidency Magistrate ...	*Members.*

The Committee will hold its meetings in public, take such evidence as it may think necessary for the purposes of the enquiry entrusted to it, and submit its report to Government with the least possible delay.

The terms of reference to the Committee are as follows :—

(1) To enquire into the circumstances attending the recent accident in connection with the ferry service at the Sibpur College landing stage.

(2) To ascertain the defects, if any, in the existing arrangements.

(3) To suggest practical measures for remedying these defects.

By order of the Governor in Council,

C. J. STEVENSON-MOORE,

Chief Secy. to the Govt. of Bengal.

No. 6750.—The 30th November 1912.—The following orders of Government regarding the preparation and submission of returns of marriages, baptisms and burials are published for general information :—

MARRIAGES.

1. No returns other than those prescribed by the Indian Christian Marriage Act are required.

2. The procedure to be observed in the submission of the original certificates of marriages by ministers of religions other than those who are empowered to submit returns and by Marriage Registrars is laid down in the Indian Christian Marriage Act and shall be observed.

BAPTISMS.

1. Every minister, of whatever denomination, who baptises European Christians, *i.e.*, all Christians of European birth or descent, or of mixed European and native decent, and Armenian Christians, shall record such baptisms in the register to be kept by him for the purpose. Returns of baptisms.

To facilitate the filling in of the quarterly returns (form specified in Appendix I) it will be found convenient to adopt for the register the form given in Appendix III.

2. As the Government desire to possess a record of all baptisms of European, Eurasian and Armenian Christians solemnised by the laity, and not only of those solemnised by the clergy, all magisterial officers are required to report every baptism by laymen within their several jurisdictions to the Registrar-General through the Divisional Commissioners. The Magistrate will enter such baptisms in a register in the form given in Appendix III to be kept by him for the purpose. Baptisms by laymen.

Exception.—When a layman solemnises a baptism in a church, and the rules of that church require that an entry of such baptism shall be made in the church register, it will suffice to make such entry, and a report thereof need not be made by the District Magistrate.

3. (*1*) A quarterly return showing all baptisms of European and Armenian Christians solemnised in whatever church or other place shall be submitted by every clergyman of the Churches of England, Rome, Scotland and Armenia to the authority to whom he submits his quarterly return of marriages under Act XV of 1872. Quarterly returns of baptisms.

(*2*) A quarterly return of all baptisms of European and Armenian Christians solemnised by him shall be submitted by ministers of every denomination other than those mentioned in clause (*1*) above to the District Magistrate within two months of the end of the quarters to which they relate.

4. (*1*) Every quarterly return prescribed under clauses (*1*) and (*2*) of paragraph 3 shall have endorsed on it the "Certificate of truth" in the form prescribed in Appendix VI. Certificate correctness.

(*2*) Such certificate should be written or printed on the face of the form on which the returns are made, the number of entries recorded being mentioned in words as well as figures in such certificate.

5. Returns of baptisms for each quarter shall be kept distinct, and shall not contain entries which belong to other quarters. If necessary, supplementary returns can be submitted. Returns to be kept distinct and supplementary returns

6. These returns shall not include entries in respect of Native Christians. Native Chistians.

7. If during any quarter no baptisms have been recorded, a "Certificate of no occurrence" in the form prescribed in Appendix VII shall be forwarded. No-occurrence certificate.

8. The officers to whom the returns under paragraph 3 (*1*) and (*2*) are submitted shall forward to the Registrar-General, within two months of the end of the quarter to which they relate, a consolidated return embodying all the baptisms so reported, and the District Magistrate shall, in addition to the above, also submit at the same time to the Registrar-General direct a quarterly return embodying all the entries relating to that quarter in the register kept by him under paragraph 2.

9. The form prescribed in Appendix V shall be used for indents.

BURIALS.

1. For every Government cemetery there shall be kept a register of burials of European Christians (*i.e.*, of all Christians of European birth or descent, or of mixed European and native descent), and of Armenian Christians in the form prescribed in Appendix IV. This register shall be in charge of the officer to whom, under rule I of the Rules for the care and use of Government cemeteries, the charge of the cemetery belongs.

2. On receipt of the notice of burial under rule VII (*1*) of the Rules for the care and use of Government cemeteries, the person in charge of the register prescribed in paragraph 1 above shall cause this register to be produced at the cemetery at the time of the ceremony.

3. The person solemnising the burial shall immediately after the burial make an entry of the same therein.

4. Every person solemnising a burial of a European or Armenian Christian in a place other than a cemetery should submit a report thereof to the District Magistrate, who will record such burial in a register to be kept by him for the purpose in the form prescribed in Appendix IV.

5. As the Government desire to possess a record of all deaths of European, Eurasian and Armenian Christians buried by the laity, and not only of those buried by the clergy, all magisterial officers are required to report every burial by laymen within their several jurisdictions to the Registrar-General through the Divisional Commissioners. The Magistrate will enter such burials in a register in the form given in Appendix IV to be kept by him for the purpose.

Quarterly returns of burials.

6. Quarterly returns of burials of European Christians and of Armenian Christians should, in the case of burials solemnised at Government cemeteries, be forwarded by the officers in charge of the register to the Registrar-General of Births, Deaths and Marriages in the form specified in Appendix II within two months of the end of the quarter to which they belong.

In the case of burials solemnised in a place other than a cemetery the Magistrate should within the same period submit to the Registrar General a copy of all the entries in his register relating to the same quarter.

7. In the case of a cemetery other than a Government cemetery the managing body should make similar arrangements for the submission to the Registrar-General of Births, Deaths and Marriages within two months of the quarter to which they relate, of similar quarterly returns of the burials of all European and Armenian Christians buried in such cemetery.

Certificate of correctness.

8. (*1*) Every return submitted to Registrar-General of Births, Deaths and Marriages should have endorsed on it the "Certificate of truth" in the form prescribed in Appendix VI.

(*2*) Such certificate should be written or printed on the face of the form on which the returns are made, the number of entries recorded being mentioned in such certificate.

Returns to be kept distinct and supplementary returns.

9. (*1*) Returns of burials for each quarter shall be kept distinct, and shall not contain entries which belong to other quarters. If necessary, supplementary returns can be submitted.

(*2*) In order to meet the requirements of the India Office, returns of burials should be separately classified, and be separately submitted for the different Christian churches and denominations.

Native Christians.

10. These returns are not to include entries in respect of Native Christians.

No-occurrence certificate.

11. If in any cemetery during any quarter no burials have been recorded a "Certificate of no occurrence" in the form prescibed in Appendix VII shall be forwarded to the Registrar-General.

12. The form prescribed in Appendix V shall be used for indents.

3. (*a*) Government reserves to itself the right to alter the quantity and class of opium to be offered for sale in each month. No reduction in the quantities to be sold, however, will be made without three months' previous notice.

(*b*) The chests sold for China will be marked in a distinguishing manner and covered by a special permit to be granted by Government.

(*c*) All chests of certified opium sold for export to China must be shipped from Calcutta, on or before the 15th of December 1913, and if they are not so shipped, the option will be cancelled, and permits for their export to China will not be given either in 1913 or at any future time.

4. The following are the conditions of sale. Government reserves to itself the right of altering all or any of these conditions after giving three months' previous notice, and power is reserved to vary the upset prices referred to in condition (ii) at any time without such previous notice:—

(i) The opium will be sold for exportation by sea only, and no certificate will be granted except to cover such export.

(ii) The opium will be ordinarily offered for sale at an upset price of Rs. 2,000 per chest of certified opium and of Rs. 1,200 per chest of uncertified opium and will be sold to the highest bidder above these prices except under the circumstances for which provision is made by clause xiii of these conditions of sale. The bids must advance by Rs. 5 at a time.

(iii) The sale shall commence at the hour of 11 A.M. of the day fixed by previous notification, and shall not be continued after the hour of 5 P.M., but if at that hour any of the lots advertised for sale shall remain unsold, the sale may, at the discretion of Government, be resumed on the next day following (not being Sunday or a public holiday), at the hour of 11 A.M., and so on until the whole of the remaining lots are disposed of; or if the whole quantity advertised shall not be sold on the day appointed, the Government may dispose of the lots which remain on hand at a future sale.

(iv) Each lot shall contain five chests.

(v) A Promissory Note for a sum, calculated according to the scale noted in the margin, shall be taken as a deposit on each lot from the purchaser in the sale-room and before the lot is registered in the sale-book, and all such Promissory Notes shall be redeemed on the part of the purchasers at this office by Bank of Bengal receipts, or by substitution of other public securities of the Government of India, on or before 3-30 P.M., in the afternoon of the fifth day after the sale, provided it does not fall on a Saturday; if it falls on a Saturday, the said notes must be redeemed by 1-30 P.M., or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal receipts or deposit of other public securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such conditions of re-sale as Government shall see fit; and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

DEPOSIT.

When the amount bid is less than Rs. 1,200 per chest, Rs. 200 per chest.

On bids of Rs. 1,200 and upwards, but less than Rs. 1,600 per chest, Rs. 300 per chest.

On bids of Rs. 1,600 and upwards, but less than Rs. 2,000 per chest, Rs. 400 per chest.

And so on, Rs. 100 being added to the deposit for every bid additional to the extent of Rs. 400.

(vi) The said Promissory Notes shall be absolutely payable in any event, and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re-sale or expenses thereby incurred, but shall be recoverable whether such re-sale shall be had or not, or whether there shall be a loss on such re-sale or not.

(vii) The Promissory Notes taken on the day of sale under the fifth condition, if remaining unredeemed at 3-30 P.M. of the fifth day following the day of sale, or 1-30 P.M., if the last day falls on a Saturday, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

(viii) No tender of money, Bank of Bengal receipts, or public securities, on account of opium upon which the prescribed deposit may not have been made before the prescribed time in clause (v) on the fifth day following the day of sale, will be afterwards accepted: Provided always that money so subsequently tendered may be taken in payment of the said Promissory Note, but such acceptance of money shall in no way entitle the payer thereof to any right to delivery of the lot or lots in respect whereof the said note was given, or to any of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such notes or from the additional liability for the loss and expenses of such re-sale as provided for in clauses No. (v) and No. (vi).

(*ix*) The opium advertised for sale shall be paid for not later than by 3-30 P.M. of the fifteenth day from the day of sale, provided it does not fall

on a Saturday; if it falls on a Saturday, the opium must be paid for by 1-30 P.M.; and, in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the fifth condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the opium shall be disposed of on account of Government at such time and in such manner as Government shall think fit; and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re-sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re-sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited.

(*x*) Purchasers taking out certificates or orders for the delivery of opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots or of a different number of lots or chests, whether more or less, than the number of lots or chests ordinarily required to be included in each certificate or order.

(*xi*) No deposit of public securities under the fifth of the present conditions will be received in this office except from the party recorded as the purchaser in the sale-book, or his authorized agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order.

(*xii*) The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall on demand render at the time a deposit either in Government of India Notes, Bank of Bengal receipts, or Government securities, a sum equal to the amount for which a Promissory Note would otherwise be taken under the fifth of these conditions.

(*xiii*) With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually by Rs. 5 at a time until a bid is obtained; and the first *bonâ fide* bidder for a lot, after it has been offered for sale in the mode here described, shall be held and declared to be the purchaser of the said lot, and the officer of Government superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum prices of Rs. 2,000 and Rs. 1,200 specified in the second of these conditions.

(*xiv*) The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency opium not exceeding altogether fifteen lots, provided always that there remain a sufficient number of lots of the opium to complete the said fifteen.

(*xv*) In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

(5) The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the office of the Government of Bengal:—

No. 1—Certificate of the opium advertised for sale.
No. 2—Report of the examination of such opium.

(6) The public are hereby informed that in providing the investment of the opium manufactured at the Patna Factory and the opium manufactured at the Ghazipur Factory, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of opium

put into each cake. An account of the weight of the drug, when packed at the Patna and Ghazipur Factories, and a statement of the average weight of the chests, indiscriminately taken, for the purpose of comparison, from the despatches on arrival at Calcutta, may be seen on personal application at the office of the Government of Bengal.

(7) Any further information respecting weight or quality of the opium advertised for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on personal application at the office of the Government of Bengal. But, in accordance with established usage, under no circumstances will the Government entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the opium for shipment.

No. 523-F.

Simla, the 12th November 1912.

RESOLUTION—By the Government of India, Finance Department.

THE Government of India have had under their consideration the question of the value to the public and to the police of the system maintained in Currency Offices of registering the numbers of notes reported lost and stolen. Under present orders, "stopped note" lists are maintained in the case of currency notes of the denomination of Rs. 50 and upwards; in the case of notes for Rs. 50, Rs. 100 and Rs. 500, the numbers of the notes are removed from the list after the expiry of one year from the date of the stoppage, and in the case of notes of Rs. 1,000 the numbers are removed after three years.

2. The working of the system necessitates the maintenance of a detailed record of all transactions and the checking of the notes tendered with the list of stopped notes, and for this reason not only entails considerable expense and trouble in Currency Offices, but also materially hampers the prompt disposal of work at the public counters, thereby causing general inconvenience. The system is also open to criticism on account of the inconvenience and annoyance to which innocent holders of notes are liable to be subjected. The presenter of a "stopped" note is entitled by law to be paid, but if he is unknown to the officials in the Currency Office the result is generally that he finds himself in the hands of the police.

3. Looking at the matter from the police point of view, it is the general opinion that the present procedure is of very little use either as a preventive of crime or as a means of detection. As regards the prevention of crime, it is extremely doubtful if would-be thieves are to any considerable extent prevented from stealing notes merely by the knowledge that encashment will be attended by risks owing to stoppage. The utility of the procedure now followed depends in fact largely on the assumption that recourse must be had to a currency Office. There are ample facilities however for

passing notes elsewhere and either for this reason or because the notes are presented before stoppage can be registered, it is a fact that a guilty person is very seldom discovered in a Currency Office. As regards detection, if a stolen note happens to be brought to a Currency Office by the thief himself, it is certain that he will give a false name or address. If the presenter has come by the note honestly, the "stopped note" system, it may be urged, enables the police to trace back possession to a guilty person. The prospects of success however in any such enquiry depend entirely on the practice of the public of registering the numbers of the notes passing through their hands, and there is evidence that this practice is being steadily abandoned, particularly since the universalisation of the Rs. 50 and Rs. 100 notes. It is clear further that the chain is likely to break down just at the point where evidence is most necessary, and a charge can be brought home to a guilty person only in those cases in which in disposing of the note he has been careless enough to frame evidence against himself.

4. The Government of India have come to the conclusion that the "stopped" note list does not afford adequate protection to the public, that it renders no material assistance to the police, that it tends to hamper in the case of currrency notes that free and unquestioned interchangeability which is the desideratum of every medium of exchange, and, in any case, that the benefits secured are not commensurate with the expense and trouble to which the Currency Department is put, and the delay and inconvenience occasioned to the public. The Chambers of Commerce, who were consulted on the subject, are generally in favour of the abolition of the system and the Governor General in Council is therefore pleased to direct its abolition forthwith.

Ordered that this Resolution be published in the *Gazette of India*.

NOTIFICATION.

STATE SCHOLARSHIPS TENABLE IN ENGLAND BY EUROPEANS AND EURASIANS EDUCATED IN INDIA.

No. 15241.—The 26th November 1912.—In the year 1907 His Majesty's Secretary of State for India sanctioned the institution of one scholarship of £200 per annum tenable at a European University to be awarded in each year to a member of the domiciled European and Eurasian community in India on the understanding that candidates belonging to this community should no longer be regarded as eligible for the two University State Scholarships at present granted to natives of India. *For the scholarship to be awarded in the year 1913 applications are now invited.*

2. The scholarship will entitle the holder to an allowance not exceeding £200 per annum payable from the date of his arrival in England and will be tenable for three or four years, as circumstances may require, at any University in the United Kingdom or, with the special sanction of the Government of India, at a foreign University. The candidate to whom the scholarship is awarded will be required to proceed to England within a reasonable period from the date of his selection, and to reside there for a period of three or four years, as the case may be, unless compelled to return sooner by ill-health. He will be provided with a free second class passage to England, and also with a free return passage if he completes the full period of residence or is compelled by sickness to return within that period.

3. The two main principles which govern the grant of the scholarship are—

(*i*) that as the object in view is to assist a domiciled European or Eurasian to go through a University course in England the scholarship will ordinarily be awarded to a young man at the close of his school career in India so that he may join the University at practically the same age as boys educated in England: the Government of India place the age limits at 18 to 21, *i.e.*, the candidate must have completed 18 years of age and not have completed 21 years on 31st March of the year in which the scholarship is awarded, and

(*ii*) the scholarship will be given to the candidate who is most likely to win distinction at the University.

4. The following rules are to be observed in regard to the form in which applications are to be submitted:—

(1) The application should ordinarily be in the handwriting of the applicant. In the exceptional case of his being out of India, the parent or guardian may submit an application.

(2) The application should give full details as to the applicant's age, family circumstances, the schools or colleges which he has attended, his studies, the distinctions he has gained, and the course of study he wishes to follow. Information should also be given as to—

(*a*) the University at which the candidate proposes to study and the reasons for selecting the particular University;

(*b*) the special aptitude, if any, which the candidate has shown for the kind of study which he proposes to pursue.

(3) The application should be accompanied by a birth certificate, a certificate from a commissioned officer of the Indian Medical Service testifying to the general health of the candidate and certifying that his physique is such that there is good prospect of the University course not being seriously interrupted by ill-health, and testimonials as to character and capacity. If original testimonials are not sent in, certified copies must be submitted. The testimonials should include—

(*a*) A certificate from the Principal of the institution last attended, stating that the applicant is of good moral

character and of active habits, and in the event of his having left school or college more than six months before the date of application, a certificate by a person of recognised position well acquainted with him, stating how he has been employed since he left school and certifying to his moral integrity.

(*b*) A certificate from some person of recognised position well acquainted with the candidate and his family, to the effect that he is a native of India within the meaning of Statute 33 Vict. Cap. 3, section 6, and that his parents are not resident in India for temporary purposes only.

5. The Director of Public Instruction will personally interview those applicants whose names he thinks worthy of submission to Government. If a personal interview is impossible (*e.g.*, owing to a candidate being absent from India), the fullest possible information should be given as to the physique and character of the candidate.

6. All applications for the scholarship to be awarded during the year 1913 should be submitted in the first instance to the Inspector of European Schools, Bengal, in time to reach the Director of Public Instruction on or before the 31st January 1913.

7. No application will be considered unless the applicant declares that the conditions of the scholarship as laid down in paragraphs 2 and 8 of this notification are known to him, and that he is prepared to abide by them.

8. The scholar will, on arrival in England, be required to bind himself by a written engagement to submit to the following rules, and to such other regulations as may from time to time be framed by His Majesty's Secretary of State for the guidance of scholars in England :—

(*a*) Every scholar shall, on reaching England, at once present himself to the Secretary, Judicial and Public Department, at the India Office, and report his arrival in writing.

(*b*) Every scholar shall, without any unnecessary delay, inform the Secretary of State to which University or College he is about to proceed, and shall at once take steps to enter himself thereat.

(*c*) Every scholar shall, at the end of each term of residence at a University, submit to the Secretary of State a certificate from the proper University or College authority showing that his residence, conduct and progress in study have been satisfactory during the term.

(*d*) Every scholar shall at all times obey such instructions as he may receive from the Secretary of State.

(*e*) Subject to a due compliance with the above conditions, the allowance, at the rate of £200 a year for three years, or four years, if so determined, will be paid quarterly, in advance, by the India Office, commencing from the date of the scholar's reporting his arrival in England.

(*f*) Every scholar will forfeit his scholarship who, not being disabled by illness or prevented by any other cause which the Secretary of State may consider sufficient, fails to complete the required terms of residence at a University or who is guilty of misconduct, persistent idleness, or disregard of the orders of the Secretary of State. If the scholarship be forfeited, the scholar will lose his claim to a free return passage to India and will further become liable to refund the cost of his free passage to England.

(*g*) The scholar will be under the supervision and charge of the Political A.-D.-C. to the Secretary of State, through whom the necessary orders will be given, and to whom all reports and other communications respecting him should be sent.

Simons bay—Regulations for Dockyard port.

No. 568 (first publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 1439 of 1912), are republished:—

HIS EXCELLENCY THE GOVERNOR-GENERAL IN COUNCIL has been pleased, under section *four* of the Simons Bay Dockyard Port Regulation Statutes, 1898-1912, to make the following regulations and to

cancel those published in the *Gazette* of the Colony of the Cape of Good Hope under Government Notice No. 732, dated 11th September 1899:—

1. The area of the Dockyard Port as defined by the statutes above mentioned is included within the following boundaries:—

On the east so much as is comprised within a line drawn due south (true) from the Phœnix Buoy to the shore, meeting a line drawn north 32° west (true) from the Phœnix Buoy to the shore on the south of Elsey Bay; on the north-west, west, and south, the line of highwater-mark of spring tides, between the points where the above defined lines meet the shore, with all bays, creeks, lakes, pools, and rivers as far as the tide flows, which boundaries are delineated on a plan filed in the office of the Surveyor-General, marked 2,554 MM.

2. No vessel shall moor or anchor so as to obstruct navigation in or out of the Dockyard Port.

3. The Senior Naval Officer shall have exclusive right to lay down moorings within the area of the Dockyard Port. Merchant ships must anchor only in berths assigned to them by the Senior Naval Officer, or his representative. Freedom of access will be given at all times when the space is not required for His Majesty's ships and vessels.

4. No gunpowder or other explosive shall be allowed on board merchant vessels without the written permission of the Senior Naval Officer, and no merchant vessel shall be allowed to discharge loaded ordnance within the whole area of the Dockyard Port as laid down in section *one* of the "Simons Bay Dockyard Port Regulation Statutes, 1898-1912." The loading or unloading of gunpowder or other explosives shall be regulated by the Senior Naval Officer.

5. No merchant vessel shall be permitted to have on board any quantity of tar, oil, or other combustible substances beyond such as may be required for her general use within the limits of the Dockyard Port without the permission of the Senior Naval Officer.

6. The Senior Naval Officer is authorized from time to time, where the Naval Service requires it, to limit the speed of steam vessels to a speed not to exceed four knots per hour within the limit of the Dockyard Port, as laid down in section *one* of the Act above quoted.

7. Every merchant vessel of and above 150 tons anchored or moored within the Dockyard Port shall have on board at least one person at all hours of the day and night.

8. If at any time the anchor of any merchant or other private vessel hooks any Government moorings, or any electric cables, or moorings of buoys, the master or other person having the charge or command of such vessel shall not proceed to unhook the same, but shall forthwith give notice thereof to the Senior Naval Officer in order that aid may be given for clearing such moorings or cables without doing damage to the same.

9. No merchant or other private vessel or boat shall, without license in writing from the Senior Naval Officer, be moored or fastened to any Government moorings, buoys, piles, or vessels in the Dockyard Port.

10. No ballast, stones, earth, clay, refuse, ashes, rubbish, dust, filth of any description, and no refuse from any quarry, mine, or pit shall be unladen, cast, or allowed to fall into the waters of the Dockyard Port, except in such places as are appointed by the Senior Naval Officer, or into or upon the banks, or any portion of the shore of the said Dockyard Port, or into or upon the shores of any rivers or streams discharging into the said Dockyard Port where the same may be liable to be washed into the waters of the Dockyard Port by rain, tide, or otherwise.

11. Nothing, however, in the foregoing provision shall be deemed to exclude such vessels as require admission to the town pier for loading and unloading cargoes; and all such vessels shall continue to enjoy their accustomed privileges in this respect as fully as if these regulations had not been made, provided they do not impede or interfere with the navigation of His Majesty's vessels.

12. The master of every vessel to which these regulations relate shall observe and cause them to be observed so far as they relate to his vessel, and if any master or other person acts in any respect in contravention of any of these regulations, or fails to observe or cause to be observed, in any respect, any of them, he shall be liable on conviction to a penalty not exceeding ten

Every such memorial should be forwarded with a covering letter containing a full statement of facts and an expression of opinion to the Government of India in the proper department for transmission to the Secretary of State* for India.

* "In the case of memorials and petitions against, or regarding Acts passed by the Legislative Council of the Governor-General, the Legislative Department is to be considered to be the department having cognizance of the subject-matter of the memorial. Such memorials will be transmitted to His Majesty's Secretary of State through that department; and to it should be referred all memorials of the kind now described, which may reach any other department of the Government of India. V.—Every memorial to His Majesty or to the Secretary of State for India presented through a local Government, other than the Government of Madras, Bombay or Bengal, should be forwarded by the local Government, with a full statement of facts and an expression of opinion, to the Government of India in the proper department for transmission to the authority addressed.†

† Appeals by private persons from the orders of the Lieutenant-Governors lie, in the first instance, to the Governor-General in Council. An appeal to the Secretary of State will lie only in the event of an appeal to the Governor-General in Council having been rejected.

XIII.—The Government of India may withhold the transmission of a memorial to His Majesty or to the Secretary of State for India unless the memorialist has previously memorialized the Government of India and the local Government concerned on the same subject; and the Government of Madras, Bombay or Bengal may withhold the transmission of a memorial which under rule IV they are authorized to forward direct, unless the memorialist has previously memorialized the local Government concerned on the same subject: provided that, when the memorial is one for pardon which no authority in India has power to grant, it should be addressed to His Majesty and forwarded to the Secretary of State for India.

3. (a) Government reserves to itself the right to alter the quantity and class of opium to be offered for sale in each month. No reduction in the quantities to be sold, however, will be made without three months' previous notice.

(b) The chests sold for China will be marked in a distinguishing manner and covered by a special permit to be granted by Government.

(c) All chests of certified opium sold for export to China must be shipped from Calcutta, on or before the 15th of December 1913, and if they are not so shipped, the option will be cancelled, and permits for their export to China will not be given either in 1913 or at any future time.

4. The following are the conditions of sale. Government reserves to itself the right of altering all or any of these conditions after giving three months' previous notice, and power is reserved to vary the upset prices referred to in condition (ii) at any time without such previous notice:—

(i) The opium will be sold for exportation by sea only, and no certificate will be granted except to cover such export.

(ii) The opium will be ordinarily offered for sale at an upset price of Rs. 2,000 per chest of certified opium and of Rs. 1,200 per chest of uncertified opium and will be sold to the highest bidder above these prices except under the circumstances for which provision is made by clause xiii of these conditions of sale. The bids must advance by Rs. 5 at a time.

(iii) The sale shall commence at the hour of 11 A.M. of the day fixed by previous notification, and shall not be continued after the hour of 5 P.M., but if at that hour any of the lots advertised for sale shall remain unsold, the sale may, at the discretion of Government, be resumed on the next day following (not being Sunday or a public holiday), at the hour of 11 A.M., and so on until the whole of the remaining lots are disposed of; or if the whole quantity advertised shall not be sold on the day appointed, the Government may dispose of the lots which remain on hand at a future sale.

(iv) Each lot shall contain five chests.

(v) A Promissory Note for a sum, calculated according to the scale noted in the margin, shall be taken as a deposit on each lot from the purchaser in the sale-room and before the lot is registered in the sale-book, and all such Promissory Notes shall be redeemed on the part of the purchasers at this office by Bank of Bengal receipts, or by substitution of other public securities of the Government of India, on or before 3-30 P.M., in the afternoon of the fifth day after the sale, provided it does not fall on a Saturday; if it falls on a Saturday, the said notes must be redeemed by 1-30 P.M., or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal receipts or deposit of other public securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such conditions of re-sale as Government shall see fit; and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

DEPOSIT

When the amount bid is less than Rs. 1,200 per chest, Rs. 200 per chest.

On bids of Rs. 1,200 and upwards, but less than Rs 1,600 per chest, Rs. 300 per chest.

On bids of Rs. 1,600 and upwards, but less than Rs 2,000 per chest, Rs 400 per chest

And so on, Rs. 100 being added to the deposit for every bid additional to the extent of Rs 400

(vi) The said Promissory Notes shall be absolutely payable in any event, and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re-sale or expenses thereby incurred, but shall be recoverable whether such re-sale shall be had or not, or whether there shall be a loss on such re-sale or not

(vii) The Promissory Notes taken on the day of sale under the fifth condition, if remaining unredeemed at 3-30 P.M. of the fifth day following the day of sale, or 1-30 P.M., if the last day falls on a Saturday, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

(viii) No tender of money, Bank of Bengal receipts, or public securities, on account of opium upon which the prescribed deposit may not have been made before the prescribed time in clause (v) on the fifth day following the day of sale, will be afterwards accepted: Provided always that money so subsequently tendered may be taken in payment of the said Promissory Note, but such acceptance of money shall in no way entitle the payer thereof to any right to delivery of the lot or lots in respect whereof the said note was

given, or to any of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such notes or from the additional liability for the loss and expenses of such re-sale as provided for in clauses No. (v) and No. (vi).

(*ix*) The opium advertised for sale shall be paid for not later than by 3-30 P.M. of the fifteenth day from the day of sale, provided it does not fall on a Saturday; if it falls on a Saturday, the opium must be paid for by 1-30 P.M.; and, in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the fifth condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the opium shall be disposed of on account of Government at such time and in such manner as Government shall think fit; and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re-sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re-sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited.

(*x*) Purchasers taking out certificates or orders for the delivery of opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots or of a different number of lots or chests, whether more or less, than the number of lots or chests ordinarily required to be included in each certificate or order.

(*xi*) No deposit of public securities under the fifth of the present conditions will be received in this office except from the party recorded as the purchaser in the sale-book, or his authorized agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order.

(*xii*) The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall on demand render at the time a deposit either in Government of India Notes, Bank of Bengal receipts, or Government securities, a sum equal to the amount for which a Promissory Note would otherwise be taken under the fifth of these conditions.

(*xiii*) With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually by Rs. 5 at a time until a bid is obtained; and the first *bonâ fide* bidder for a lot, after it has been offered for sale in the mode here described, shall be held and declared to be the purchaser of the said lot, and the officer of Government superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum prices of Rs. 2,000 and Rs. 1,200 specified in the second of these conditions.

(*xiv*) The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency opium not exceeding altogether fifteen lots, provided always that there remain a sufficient number of lots of the opium to complete the said fifteen.

(*xv*) In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

(5) The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the office of the Government of Bengal:—

No. 1—Certificate of the opium advertised for sale.
No. 2—Report of the examination of such opium.

(6) The public are hereby informed that in providing the investment of the opium manufactured at the Patna Factory and the opium manufactured at the Ghazipur Factory, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of opium put into each cake. An account of the weight of the drug, when packed at the Patna and Ghazipur Factories, and a statement of the average weight of the chests, indiscriminately taken, for the purpose of comparison, from the despatches on arrival at Calcutta, may be seen on personal application at the office of the Government of Bengal.

(7) Any further information respecting weight or quality of the opium advertised for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on personal application at the office of the Government of Bengal. But, in accordance with established usage, under no circumstances will the Government entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the opium for shipment.

Offg. Secretary.

The Draft Financial Statement.

3. On a day not later than the 5th day of January in every year, the Governor shall direct that a Finance Committee be constituted for the purpose of discussing the Draft Financial Statement and making proposals with reference thereto for the consideration of the Local Government.

4. (1) The Finance Committee shall consist of not more than twelve members, of whom not more than half shall be nominated by the Governor.

(2) The remaining members of the Committee shall be elected by the non-official members of Council by votes given under such procedure as the Governor may from time to time prescribe by notification in the *Calcutta Gazette*.

5. The Finance Member shall be the Chairman of the Committee, and in the case of an equality of votes on any matter shall have a second or casting vote.

6. (1) On a day not later than the 18th day of January in every year, the Local Government shall refer the Draft Financial Statement to the Finance Committee.

(2) The Draft shall comprise tabular statements showing—

(a) the opening balance of the Provincial account;

(b) the estimated Provincial revenue under the various major heads of account;

(c) the estimated Provincial expenditure, under specific major heads, on existing establishments and schemes, and on new schemes the cost of which is not considerable or which the Local Government considers to be of an absolutely obligatory character;

(d) the amounts available for maximum recurring expenditure and for total expenditure upon other new schemes, the latter being provisionally included under a head "Unallotted Expenditure"; and

(e) the estimated closing balance.

(3) There shall be appended to the Draft Financial Statement a memorandum indicating as fully as possible the manner in which the Local Government provisionally proposes to allot the sum available for total expenditure on new schemes referred to in clause (d) of sub-rule (2), and also indicating, if thought desirable, alternative methods of distributing this expenditure. In respect of each suggestion thus made, the maximum recurring expenditure, and the total expenditure—(a) recurring and (b) non-recurring—which it is proposed to incur in the next financial year, shall be separately stated.

7. The Finance Committee shall consider how the provision made under the head "Unallotted Expenditure" referred to in clause (*d*) of sub-rule (2) of rule 6 shall be distributed among the specific major heads, and to what purposes the sums thus allotted should be applied:

Provided that—

(*i*) the total provision for recurring and non-recurring expenditure on the new schemes shall not exceed the amount entered in the Draft Financial Statement as available for those purposes; and

(*ii*) the limit of recurring expenditure shall be determined with reference to the maximum amount which a scheme will eventually involve, any difference between this figure and the recurring expenditure required to be provided in the Draft Financial Statement under discussion being made up by addition to non-recurring expenditure.

18. A Member who wishes to move a resolution shall give notice in writing to the Secretary prior to the date on which the Revised Financial Statement is presented to the Council, and shall, together with the notice, submit a copy of the resolution which he wishes to move:

Provided that the President may fix a date after which no notice of any such resolution may be received.

Provided that the President may, in any case, address the Council before putting the question to the vote.

27. If any resolution involves many points, the President may, at his discretion, divide it so that each point may be determined separately.

(2) A printed copy of the Budget shall be given to each Member.

34. (1) The general discussion of the Budget in Council shall take place on such later day as may be appointed by the President for this purpose.

(2) At such discussion, any Member shall be at liberty to offer any observations he may wish to make on the Budget, but no Member shall be permitted to move any resolution in regard thereto, nor shall the Budget be submitted to the vote of the Council.

(3) It shall be open to the President, if he thinks fit, to prescribe a time-limit for speeches.

35. The discussion shall be limited to those branches of revenue and expenditure which are under the financial control of the Local Government, and it will not be permissible to enter upon criticisms of Imperial finance.

36. The Finance Member shall have the right of reply, and the discussion shall be closed by the President making such observations as he may consider necessary.

(2) No discussion on any point of order shall be allowed, unless the President thinks fit to take the opinion of the Council thereon.

(3) Any member may at any time submit a point of order for the decision of the President.

(4) The President shall have all powers necessary for the purpose of enforcing his decisions.

40. The Governor may appoint a Member of the Council to preside in his place, or in that of the Vice-President, on any occasion on which the Revised Financial Statement or the Budget or any portion thereof is discussed in the Council.

From the marks assigned to Candidates in each subject such deduction will be made as the Civil Service Commissioners may deem necessary in order to secure that no credit be allowed for merely superficial knowledge.

Consistently with the limitation specified above, Candidates are at liberty to name any of the foregoing subjects, provided that the maximum number of marks that can be obtained from the subjects chosen is limited to 6,000. If this maximum is exceeded by a Candidate's selection, he will be required to indicate one of his subjects, the marks for which should, in his case, be reduced so as to bring his maximum marks within the prescribed limit. The marks so reduced will be subject to a correspondingly reduced deduction.

Moreover, if a Candidate's handwriting is not easily legible, a further deduction will, on that account, be made from the total marks otherwise accruing to him.*

6. A list of the competitors shall be made out in order of their proficiency as disclosed by the aggregate marks finally awarded to each competitor, and in that order so many competitors, up to the determined number of appointments, as are found by the Civil Service Commissioners to be qualified by examination, shall be designated to be Selected Candidates for the Civil Service of India, provided that they appear to be duly qualified in other respects. Should any Selected Candidate become disqualified, the Secretary of State for India will determine whether the vacancy thus created shall be filled or not. In the former case the Candidate next in order of merit, and in other respects duly qualified, shall be deemed to be a Selected Candidate.

* It is notified for general information that the number of marks deducted for bad handwriting may be considerable

7. Selected Candidates, before proceeding to India, will be on probation for one year, at the end of which time they will be examined, with a view of testing their progress in the following subjects (*a*) :—

2.	Code of Criminal Procedure	200
3.	The Indian Evidence Act	200

For Bihar and Orissa	Hindustani.
For Burma	Burmese.
For Bombay	Marathi

For Madras	Tamil or Telugu

In Hindustani the Candidate will be required to be acquainted with both the Persian and the Nagari character.

A Candidate assigned to Bengal or Assam, whose mother-tongue is Bengali, must offer for examination Hindustani; a Candidate assigned to Bombay, whose mother-tongue is Marathi, must offer for examination Hindustani; and a Candidate assigned to Madras, whose mother-tongue is either of the languages shown against his Province, must offer the other for examination.

† These subjects may not be offered by any Candidate who has offered them at the Open Competition.

In this Examination, as in the Open Competition, the merit of the Candidates examined will be estimated by marks (which will be subject to deductions in the same way as the marks assigned at the Open Competition), and the number set opposite to each subject denotes the greatest number of marks that can be obtained in respect of it. The Examination will be conducted on paper and *viva voce*, as may be deemed necessary. This Examination will be held at the close of the year of probation, and will be called the "*Final Examination*".

If any Candidate is prevented by sickness or any other adequate cause from attending such examination, the Commissioners may, with the concurrence of the Secretary of State for India in Council, allow him to appear at the Final Examination to be held in the following year, or at a special examination.

8. The selected Candidates will also be tested during their probation as to their proficiency in Riding.

(*a*) Instructions, showing the extent of the examination, will be issued to Selected Candidates as soon as possible after the result of the Open Competition is declared.

The examinations in riding will be held as follows :—

(1) Shortly after the result of the Open Competitive Examination has been declared, or at such time or times as the Commissioners may appoint during the course of the probationary year.

(2) Again, at the time of the Final Examination. Candidates who may then fully satisfy the Commissioners of their ability to ride well and to perform journeys on horseback will be awarded from 100 to 200 marks, according to the degree of proficiency displayed, to be added to their marks in the Final Examination. Candidates who fail to obtain 100 marks, but are reported by the Civil Service Commissioners to have reached a minimum standard of proficiency in riding, and are certified by the said Commissioners to be entitled to be appointed to the Civil Service of India, will, on their arrival in India, be subjected to such further tests in riding as may be prescribed by their Government, and shall receive no increase to their initial salary until they have passed such tests to the satisfaction of that Government.

A Candidate, who fails at the end of the year of probation to satisfy the Civil Service Commissioners that he has reached the minimum standard of proficiency in riding, will be liable to have his name removed from the list of Selected Candidates.

9. The Selected Candidates who, on examination, shall be found to have a competent knowledge of the subjects specified in Regulation 7, and who shall have satisfied the Civil Service Commissioners of their eligibility in respect of nationality, age, health, character, conduct during the period of probation, and ability to ride, shall be certified by the said Commissioners to be entitled to be appointed to the Civil Service of India provided they shall comply with the regulations in force, at the time, for that Service.

10. Persons desirous to be admitted as Candidates must apply on Forms, which may be obtained from "The Secretary to the Civil Service Commissioners, London," at any time after the 1st December, in the year previous to that in which the Examination is to be held. No person will be admitted to the Examination from whom the Secretary to the Civil Service Commissioners has not received on or before the 1st June (or, if that date should fall on a Sunday or public holiday, then, on or before the first day thereafter on which their office is open) in the year in which the Examination is to be held, an application, in the handwriting of the Candidate, on the prescribed form.

The Civil Service Commissioners are authorized by the Secretary of State for India in Council to make the following announcements :—

(i) *Selected Candidates will be allotted to the various provinces upon a consideration of all the circumstances, including their own wishes; but the requirements of the Public Service will rank before every other consideration.*

(ii) *An allowance amounting to £150 will be given to any Candidate who passes his probation at one of the Universities or College which have been approved by the Secretary of State, viz., the Universities of Oxford, Cambridge, Dublin, Glasgow, Edinburgh, St. Andrews, Aberdeen and London (University College or King's College); Victoria University, Manchester.*

This allowance will be paid to the selected Candidate in four instalments on the following dates respectively—December 24th, after his selection, March 25th, June 24th, and the date of his signing his covenant on being finally appointed to the Service.

With the final instalment an allowance on account of passage to India will be paid to each newly-appointed civilian to the amount £37 10s. 0d., for passage to Calcutta, Madras or Bombay, and £43 for passage to Rangoon, the Officer then making his own arrangements for his passage.

The payment of each of the first three instalments will be conditional on the receipt, by the Secretary of State, through the Civil Service Commissioners, of a Certificate that the Candidate has fulfilled up to date the requirements of the Authorities, and shown satisfactory conduct at the Authorized University or College; the fourth and final instalment will be paid as soon as the selected Candidate has signed his covenant, and for its payment no certificate from College Authorities will be required.

The whole probation must ordinarily be passed at the same Institution. Migration will not be permitted except for special reasons approved by the Secretary of State.

(iii) *Each Candidate will be required before receiving the first instalment of his allowance to execute an agreement binding himself and one surety, jointly and severally, to refund all monies he may have received from the Secretary of State for India in the event of—*

(1) *his failure to pass the final Examination within the time prescribed by the Regulations, and to satisfy the Civil Service Commissioners of his fitness for admission to the Civil Service of India, or*

(2) *his subsequent failure to execute the usual covenant, and to proceed to India, as and when he shall be directed by the Secretary of State for India.*

(iv) *All Candidates obtaining Certificates will be also required to enter into covenants, by which, amongst other things, they will bind themselves to make such payments as, under the rules and regulations for the time being in force, they may be required to make towards their own pensions or for the pensions of their families. The stamps payable on these covenants amount to £1.*

(v) *The seniority in the Civil Service of India of the Candidates obtaining Certificates will be determined according to the order in which they stand on the list resulting from the combined marks of the Open Competitive and Final Examinations.*

(vi) *Candidates obtaining Certificates will be required to report their arrival in India within such period after the grant of their Certificates of Qualification as the Secretary of State may in each case direct.*

(vii) *Candidates who fail to satisfy the Civil Service Commissioners at the Final Examination held in any year will be definitely rejected, and will not be allowed to present themselves for re-examination, unless it shall appear to the Secretary of State in Council, after reference to the Civil Service Commissioners, that such failure is due to circumstances wholly exceptional and beyond the control of the Candidate.*

In view of the importance of legible handwriting in the public service, Candidates are warned that the provision as to deductions for bad handwriting in these competitions will be strictly enforced.

A minute and detailed knowledge will not be looked for in this part of the Examination. But its aim will be to test how far the Candidates have studied at first hand the chief productions of the greatest English writers, and are acquainted with the leading characteristics of their thought and style, and with the place which each of them occupies in the history of English Literature.

The other part of the Examination will relate to one of the following periods, which will follow each other year by year in rotation :—

The Examination in this part will require from the Candidates a more minute acquaintance with the history of the English Language and Literature, as illustrated in the chief works produced in each period, and will

be based to a considerable extent, but by no means exclusively, on certain books specified each year by the Commissioners. The names and other indications placed beside the dates are intended to suggest the general character of the literary development of the period, and, consequently, the natural limits of the Examination. NOTIFICATION.

STATE SCHOLARSHIPS TENABLE IN ENGLAND BY EUROPEANS AND EURASIANS EDUCATED IN INDIA.

No. 15241.—The 26th November 1912.—In the year 1907 His Majesty's Secretary of State for India sanctioned the institution of one scholarship of £200 per annum tenable at a European University to be awarded in each year to a member of the domiciled European and Eurasian community in India on the understanding that candidates belonging to this community should no longer be regarded as eligible for the two University State Scholarships at present granted to natives of India. *For the scholarship to be awarded in the year 1913 applications are now invited.*

2. The scholarship will entitle the holder to an allowance not exceeding £200 per annum payable from the date of his arrival in England and will be tenable for three or four years, as circumstances may require, at any University in the United Kingdom or, with the special sanction of the Government of India, at a foreign University. The candidate to whom the scholarship is awarded will be required to proceed to England within a reasonable period from the date of his selection, and to reside there for a period of three or four years, as the case may be, unless compelled to return sooner by ill-health. He will be provided with a free second class passage to England, and also with a free return passage if he completes the full period of residence or is compelled by sickness to return within that period.

3. The two main principles which govern the grant of the scholarship are—

(*i*) that as the object in view is to assist a domiciled European or Eurasian to go through a University course in England the scholarship will ordinarily be awarded to a young man at the close of his school career in India so that he may join the University at practically the same age as boys educated in England: the Government of India place the age limits at 18 to 21, *i.e.*, the candidate must have completed 18 years of age and not have completed 21 years on 31st March of the year in which the scholarship is awarded, and

(*ii*) the scholarship will be given to the candidate who is most likely to win distinction at the University.

4. The following rules are to be observed in regard to the form in which applications are to be submitted:—

(1) The application should ordinarily be in the handwriting of the applicant. In the exceptional case of his being out of India, the parent or guardian may submit an application.

(2) The application should give full details as to the applicant's age, family circumstances, the schools or colleges which he has attended, his studies, the distinctions he has gained, and the course of study he wishes to follow. Information should also be given as to—

(*a*) the University at which the candidate proposes to study and the reasons for selecting the particular University;

(*b*) the special aptitude, if any, which the candidate has shown for the kind of study which he proposes to pursue.

(3) The application should be accompanied by a birth certificate, a certificate from a commissioned officer of the Indian Medical Service testifying to the general health of the candidate and certifying that his physique is such that there is good prospect of the University course not being seriously interrupted by ill-health, and testimonials as to character and capacity. If original testimonials are not sent in, certified copies must be submitted. The testimonials should include—

(*a*) A certificate from the Principal of the institution last attended, stating that the applicant is of good moral

character and of active habits, and in the event of his having left school or college more than six months before the date of application, a certificate by a person of recognised position well acquainted with him, stating how he has been employed since he left school and certifying to his moral integrity.

(*b*) A certificate from some person of recognised position well acquainted with the candidate and his family, to the effect that he is a native of India within the meaning of Statute 33 Vict. Cap. 3, section 6, and that his parents are not resident in India for temporary purposes only.

5. The Director of Public Instruction will personally interview those applicants whose names he thinks worthy of submission to Government. If a personal interview is impossible (*e.g.*, owing to a candidate being absent from India), the fullest possible information should be given as to the physique and character of the candidate.

6. All applications for the scholarship to be awarded during the year 1913 should be submitted in the first instance to the Inspector of European Schools, Bengal, in time to reach the Director of Public Instruction on or before the 31st January 1913.

7. No application will be considered unless the applicant declares that the conditions of the scholarship as laid down in paragraphs 2 and 8 of this notification are known to him, and that he is prepared to abide by them.

8. The scholar will, on arrival in England, be required to bind himself by a written engagement to submit to the following rules, and to such other regulations as may from time to time be framed by His Majesty's Secretary of State for the guidance of scholars in England :—

(*a*) Every scholar shall, on reaching England, at once present himself to the Secretary, Judicial and Public Department, at the India Office, and report his arrival in writing.

(*b*) Every scholar shall, without any unnecessary delay, inform the Secretary of State to which University or College he is about to proceed, and shall at once take steps to enter himself thereat.

(*c*) Every scholar shall, at the end of each term of residence at a University, submit to the Secretary of State a certificate from the proper University or College authority showing that his residence, conduct and progress in study have been satisfactory during the term.

(*d*) Every scholar shall at all times obey such instructions as he may receive from the Secretary of State.

(*e*) Subject to a due compliance with the above conditions, the allowance, at the rate of £200 a year for three years, or four years, if so determined, will be paid quarterly, in advance, by the India Office, commencing from the date of the scholar's reporting his arrival in England.

(*f*) Every scholar will forfeit his scholarship who, not being disabled by illness or prevented by any other cause which the Secretary of State may consider sufficient, fails to complete the required terms of residence at a University or who is guilty of misconduct, persistent idleness, or disregard of the orders of the Secretary of State. If the scholarship be forfeited, the scholar will lose his claim to a free return passage to India and will further become liable to refund the cost of his free passage to England.

(*g*) The scholar will be under the supervision and charge of the Political A.-D.-C. to the Secretary of State, through whom the necessary orders will be given, and to whom all reports and other communications respecting him should be sent.

No. 568 (second publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 1439 of 1912), are republished :—

HIS EXCELLENCY THE GOVERNOR-GENERAL IN COUNCIL has been pleased, under section *four* of the Simons Bay Dockyard Port Regulation Statutes, 1898-1912, to make the following regulations and to

cancel those published in the *Gazette* of the Colony of the Cape of Good Hope under Government Notice No. 732, dated 11th September 1899:—

1. The area of the Dockyard Port as defined by the statutes above mentioned is included within the following boundaries:—

On the east so much as is comprised within a line drawn due south (true) from the Phœnix Buoy to the shore, meeting a line drawn north 32° west (true) from the Phœnix Buoy to the shore on the south of Elsey Bay; on the north-west, west, and south, the line of highwater-mark of spring tides between the points where the above defined lines meet the shore, with all bays, creeks, lakes, pools, and rivers as far as the tide flows, which boundaries are delineated on a plan filed in the office of the Surveyor-General, marked 2,554 MM.

2. No vessel shall moor or anchor so as to obstruct navigation in or out of the Dockyard Port.

3. The Senior Naval Officer shall have exclusive right to lay down moorings within the area of the Dockyard Port. Merchant ships must anchor only in berths assigned to them by the Senior Naval Officer, or his representative. Freedom of access will be given at all times when the space is not required for His Majesty's ships and vessels.

4. No gunpowder or other explosive shall be allowed on board merchant vessels without the written permission of the Senior Naval Officer, and no merchant vessel shall be allowed to discharge loaded ordnance within the whole area of the Dockyard Port as laid down in section *one* of the "Simons Bay Dockyard Port Regulation Statutes, 1898-1912." The loading or unloading of gunpowder or other explosives shall be regulated by the Senior Naval Officer.

5. No merchant vessel shall be permitted to have on board any quantity of tar, oil, or other combustible substances beyond such as may be required for her general use within the limits of the Dockyard Port without the permission of the Senior Naval Officer.

6. The Senior Naval Officer is authorized from time to time, where the Naval Service requires it, to limit the speed of steam vessels to a speed not to exceed four knots per hour within the limit of the Dockyard Port, as laid down in section *one* of the Act above quoted.

7. Every merchant vessel of and above 150 tons anchored or moored within the Dockyard Port shall have on board at least one person at all hours of the day and night.

8. If at any time the anchor of any merchant or other private vessel hooks any Government moorings, or any electric cables, or moorings of buoys, the master or other person having the charge or command of such vessel shall not proceed to unhook the same, but shall forthwith give notice thereof to the Senior Naval Officer in order that aid may be given for clearing such moorings or cables without doing damage to the same.

9. No merchant or other private vessel or boat shall, without license in writing from the Senior Naval Officer, be moored or fastened to any Government moorings, buoys, piles, or vessels in the Dockyard Port.

10. No ballast, stones, earth, clay, refuse, ashes, rubbish, dust, filth of any description, and no refuse from any quarry, mine, or pit shall be unladen, cast, or allowed to fall into the waters of the Dockyard Port, except in such places as are appointed by the Senior Naval Officer, or into or upon the banks, or any portion of the shore of the said Dockyard Port, or into or upon the shores of any rivers or streams discharging into the said Dockyard Port where the same may be liable to be washed into the waters of the Dockyard Port by rain, tide, or otherwise.

11. Nothing, however, in the foregoing provision shall be deemed to exclude such vessels as require admission to the town pier for loading and unloading cargoes; and all such vessels shall continue to enjoy their accustomed privileges in this respect as fully as if these regulations had not been made, provided they do not impede or interfere with the navigation of His Majesty's vessels.

12. The master of every vessel to which these regulations relate shall observe and cause them to be observed so far as they relate to his vessel, and if any master or other person acts in any respect in contravention of any of these regulations, or fails to observe or cause to be observed, in any respect, any of them, he shall be liable on conviction to a penalty not exceeding ten

ROYAL COMMISSION ON THE PUBLIC SERVICES IN INDIA.

NOTICE.

THE Royal Commission on the Public Services in India will assemble in India towards the end of December 1912. They will commence to hold meetings for the taking of evidence on Wednesday, the 8th January, at Madras, and, as at present arranged, will afterwards proceed to Bengal and Burma. The following sets of questions, marked A and B, relating to the Indian and Provincial Civil Services, and intended primarily, the former for the Local Government and officials, and the latter for non-officials, are published for general information. Societies, Associations and gentlemen, official and non-official, of the Bengal Presidency interested in this branch of the Commission's enquiry are invited to tender written statements regarding any matters referred to in either set of questions as to which they desire to make any representations. Such written statements should be forwarded to the Joint Secretaries to the Commission at Madras not later than the 15th January 1913. The questions are necessarily wide and general, and replies may be confined, if desired, to matters on which the writer desires to give particular information or to express his views.

QUESTIONS RELATING TO THE INDIAN CIVIL SERVICE.

INDIAN CIVIL SERVICE.

METHODS OF RECRUITMENT.

(a) *General.*

Question 1.—What is your experience of the working of the present system of recruitment by open competitive examination for the Indian Civil Service? Do you accept it as generally satisfactory in principle?

Qustion 2.—In what respects, if any, do you find the present system faulty in detail, and what alterations would you suggest?

Question 3.—Is the system equally suitable for the admission of "Natives of India"* and of other natural-born subjects of His Majesty? If not, what alteration do you recommend?

Question 4.—Further, is any differentiation desirable between other classes of natural-born subject of His Majesty? If so, what do you propose?

Question 5.—Do you consider that the combination of the open competitive examination for the Home and Colonial Civil Services with that for the Indian Civil Service is or is not to the advantage of Indian interests? Please give your reasons.

Question 6.—If you do not consider the present system of recruitment by an open competitive examination to be satisfactory in principle, please state what alternative you would propose. Do you recommend a system based on any of the following principles:—

(*a*) Selection by headmasters of schools approved or otherwise:

(*b*) Selection by authorities in Universities approved or otherwise:

(*c*) Nomination by headmasters or University authorities and selection under the orders of the Secretary of State:

(*d*) Combined nomination and examination:

(*e*) Any other method.

Question 7.—What is your opinion regarding a system of simultaneous examination in India and in England, open in both cases to all natural-born subjects of His Majesty?

Question 8.—Are you in favour of holding this examination simultaneously at any other centre or centres within His Majesty's dominions?

Question 9.—What would be your opinion with regard to filling a fixed proportion of the vacancies in the Indian Civil Service cadre by "Natives of India" recruited by means of a separate examination in India or by means of separate examinations in each province or group of provinces in India? If so, what proportion do you recommend?

Question 10.—If you do not approve of simultaneous or separate examinations in India, are you in favour of any system under which "Natives of India" would be selected in India for admission to the Indian Civil Service by means of (*a*) nomination; (*b*) combined nomination and examination; or (*c*) any other method? If so, please describe fully what system you would recommend. In particular, do you consider it desirable that whatever the system, all classes and communities should be represented? If so, how would you give effect to this principle?

* The term "Natives of India" has been defined in section 6 of the Government of India Act, 1870 (33 Vict., c. 3), as including any persons born and domiciled within the Dominions of His Majesty in India of parents habitually resident in India and not established there for temporary purposes only; and the term has been so used throughout these questions.

Question 11.—If you are in favour of a system for the part recruitment of the Indian Civil Service by "Natives of India" in India, do you consider that "Natives of India" should still be eligible for appointment in England, or would you restrict that right to other natural-born subjects of His Majesty?

Question 12.—Would you regard any system of selection in India which you may recommend for young men who are "Natives of India" as being in lieu of, or as supplementary to, the present system of promoting to listed posts officers of the Provincial Civil Services? If the former, what alteration, if any, would you recommend in the conditions governing the Provincial Civil Services?

Question 13.—Do you recommend any separate method of recruitment for the Judicial branch of the Indian Civil Service? If so, please describe the system that you would propose.

Question 14.—Are you satisfied with the present definition of the term "Natives of India" in section 6 of the Government of India Act, 1870 (33 Vict., c. 3), as including "any person born and domiciled within the dominions of His Majesty in India, of parents habitually resident in India, and not established there for temporary purposes only," irrespective of whether such persons are of unmixed Indian descent, or of mixed European and Indian descent, or of unmixed European descent? If not, please state fully any proposals that you wish to make in regard to this matter.

(b) Age limits.

Question 15.—If the system of recruitment by open competitive examination in England is retained, please state the age-limits that you recommend for candidates at such examination, giving your full reasons. Do you consider that the age-limits should be fixed to attract candidates of the normal school-leaving age in England, or candidates who have completed a University course, or candidates at an intermediate stage of education?*

Question 16.—What is your experience of the relative merits of the candidates selected under varying age-limits, particularly under the systems in force from 1878 to 1891 (age-limits 17—19 years, followed by two or three years' probation at an approved University) and since 1891 (age-limits 21—23 or 22—24 years, followed by one year's probation)?

Question 17.—What is your opinion regarding the suitability of the recent recruits to the Indian Civil Service?

Question 18.—What is the most suitable age at which junior civilians should arrive in India?

Question 19.—What age-limits for the open competitive examination in England would best suit candidates who are "Natives of India," and for what reasons? Do you recommend any differentiation between the age-limits for "Natives of India" and for other natural-born subjects of His Majesty?

* The principal changes in the age-limits have been as follows :—

Years.	Age-limits at open competition.	Period of probation in England.	Age of selected candidates at end of year of arrival in India.
1855—1857 ...	18—23 years ...	No probation in England ...	18½—23½
1860—1865 ...	18—22 „ ...	One year's probation ...	19½—23½
1866—1878 ...	17—21 „ on 1st March ...	Two years' probation ...	19¾—23¾
1878—1891 ...	17—19 „ „ 1st January ...	Two or three years' probation ...	20—23
1892—1895 ...	21—23 „ „ 1st April ...	One year's probation ...	22⅔—24⅔
1896—1905 ...	21—23 „ „ 1st January ...	Ditto ...	23—25
Since 1906 ...	22—24 „ „ 1st August ...	Ditto ...	23½—25½

(c) *Subjects of Examination.*

Question 20.—On what principle should the subjects for the open competitive examination be fixed? Do you accept the principle laid down by Lord Macaulay's Committee in 1854, and since followed, that "the examination should be of such a nature that no candidate who may fail shall to whatever calling he may devote himself, have any reason to regret the time and labour which he had spent in preparing himself to be examined," and that the object should be to secure, not specialists in any particular subject that may be useful in a subsequent Indian career, but the ordinary well-educated young man of the period?

Question 21.—Please examine the table in Appendix I to these questions, which shows the various phases of the authorized syllabus of the open competitive examination, and state what changes, if any, are, in your opinion, desirable, differentiating between the cases of candidates (*a*) of school-leaving age and (*b*) of University-leaving age?

Question 22.—Is any differentiation in the subjects for the examination desirable between candidates who are "Natives of India" and other candidates? If so, please state them and give reasons.

(d) *Statutory Regulations.*

Question 23.—Do you consider it necessary that certain posts should be reserved by Statute for officers recruited to the Indian Civil Service, and, if so, what posts and for what reasons? Please state in detail what alterations (if any) you recommend in the schedule of the Indian Civil Service Act of 1861 (24 and 25 Vict., c. 54). [Attention is invited to the provisions of the Indian Civil Service Act, 1861 (24 & 25 Vict., c. 54), and of the Government of India Act, 1870 (33 Vict., c. 3), reproduced as Appendices II and III to these questions.]

Question 24.—Do you consider that a minimum proportion of European subjects of His Majesty should be employed in the higher posts of the civil administration? If so, to what *proportion* of the posts included in the Indian Civil Service cadre do you consider that "Natives of India" might, under present conditions, properly be admitted?

Question 25.—Do you accept as generally satisfactory in principle the present system under which "Natives of India" are recruited partly through the medium of an open competitive examination in England, and partly by special arrangement in India, in accordance either with rules framed under the provisions of section 6 of the Government of India Act, 1870 (33 Vict., c. 3), or with the provisions of the Indian Civil Service Act, 1861 (24 & 25 Vict., c. 54)? Do you recommend any alterations in this system, and, if so, what?

Question 26.—Give a list of the "Natives of India" now serving in your province who were recruited to the Indian Civil Service by means of open competition in England, stating in what year they were admitted, in which posts they are now serving, and their present rate of salary.

Question 27.—Have the "Natives of India," recruited by means of open competition in England, proved, on the average, as efficient as the European members of the Indian Civil Service of the same standing and recruited in the same manner? Has it been found possible and expedient to employ them in all branches of the administration, whether on executive or judicial duties?

Question 28.—Do you consider that the old system of appointment of "Statutory Civilians" under the Statute of 1870 should be revived, and, if so, what method of recruitment would you recommend?

(e) Mixed Commissions.

Question 29.—What experience have you had of military or other officers who have been specially recruited in India to fill Indian Civil Service posts, and how many such officers are employed in your province? Please distinguish in your reply between (*a*) military officers and (*b*) others; and give details of the latter.

Question 30.—Have such officers proved on the average as efficient as members of the Indian Civil Service filling posts of similar responsibility? Has it been possible and expedient to employ them in all branches of the administration, whether on executive or judicial duties?

Question 31.—If the system of recruiting military officers in India has been stopped, or has never existed in your province, would you advise its reintroduction or introduction, as the case may be, and if the system should be introduced or reintroduced, to what extent should it be adopted?

Question 32.—Do you consider that such a system should be restricted to the recruitment of military officers or extended to the recruitment of selected officers from other Indian services?

(f) Listed Posts, etc.

Question 33.—Please now refer to the rules, dated 26th August 1910, made in exercise of the powers conferred by section 6 of the Government of India Act, 1870 (33 Vict., c. 3), and reproduced as Appendix IV, and to the statement in Appendix V, to these questions, showing the number of offices, places and appointments, commonly known as listed posts, ordinarily held by members of the Indian Civil Service, to fill which it has been declared that members of the Provincial Civil Service can properly be appointed; and say whether the figures given are correct for your province.

Question 34.—Are all the posts thus listed, ordinarily and regularly filled by "Natives of India"? If not, please state for the last five years to what extent there has been any failure to work up to the authorized list, and explain the reasons.

Question 35.—To what extent also during the last five years have these listed posts been filled—

(*a*) by members of the Provincial Civil Service;
(*b*) by other "Natives of India"?

Please give the names and positions of the latter, if any.

Question 36.—Has the power to fill one-quarter of the listed posts with "Natives of India" other than members of the Provincial Civil Service or Statutory Civilians been ordinarily and regularly exercised? If not, can you give the reasons for this, and do you think it advisable that the power should be utilized and in what directions?

Question 37.—Does the system by which most of the inferior listed posts are merged in the Provincial Civil Service give satisfaction—

(*a*) to the members of the Provincial Civil Service; and
(*b*) to the public interested in this question;

and what advantages, if any, does this arrangement possess?

Question 38.—Is the class of posts listed suitable? If not, in what directions would you suggest any changes and why?

Question 39.—Have the officers of the Provincial Civil Service, selected to fill listed posts, proved on the average as efficient as members of the Indian Civil Service filling posts of similar responsibility, and has it been found possible and expedient to employ them in all branches of the administration?

Question 40.—Please now turn to the Indian Civil Service Act, 1861 (24 & 25 Vict., cap. 54), which will be found in Appendix II to these questions, and say how many "Natives of India" have been appointed permanently to posts in your province under its provisions during the last five years, giving names and the nature of the posts so filled.

Question 41.—Are there any other ways in which "Natives of India" are appointed to your province to Civil Service posts? If so, please give details of the same.

Question 42.—Please add such remarks as you may desire to offer on any points relating to the system of recruitment for Indian Civil Service posts which are not covered by your answers to the foregoing questions.

SYSTEMS OF TRAINING AND PROBATION.

(a) Probation.

Question 43.—What is your experience of the results of the existing system under which successful candidates in the open competitive examination are required to undergo a probationer's course of instruction in England? Do you recommend the continuance or abolition of this system?

Question 44.—What should be the duration of the probationer's course in England (*a*) under the present system of the open competitive examination, (*b*) under any modification of that system recommended by you?

Question 45.—Do you consider it desirable that probationers should be required to spend their period of probation in England at an approved University?

Question 46.—If so, do you advise the selection of one or more Universities for this purpose, and for what reasons?

Question 47.—Do you consider that probationers should receive allowances during their period of probation? If so, please give the scale and conditions that you recommend.

Question 48.—If you do not advise attendance at an approved University during the period of probation in England, what alternative course of study do you recommend?

Question 49.—Would it, in your opinion, be desirable to establish a separate institution in England for this purpose, and, if so, under what conditions?

Question 50.—If a probationer's course is continued in England, do you accept the principle laid down by Lord Macaulay's Committee in 1854, that successful candidates in the open competition should be considered as having finished their general education, and that their future studies should be such as have a special tendency to fit them for their calling? Does your answer apply equally to candidates who pass the open competitive examination after leaving school and to those who do so after completing a University course?

Question 51.—Please examine the statement printed as Appendix VI to these questions, showing the courses of studies prescribed for probationers in 1891 and 1912, and state what alterations (if any) you desire to recommend in the present course (*a*) under the existing system of the open competitive examination, and (*b*) under any modification of that system recommended by you?

Question 52.—In particular, please state your opinion as to the desirability during the period of probation of (1) compulsory attendance at Law Courts in England and reporting of cases; (2) the teaching of Indian Law in addition to the general principles of jurisprudence; (3) the teaching of the grammar and text-books of Indian languages with or without any attempt at colloquial instruction; (4) the teaching of (*a*) Indian Geography, (*b*) Political Economy, (*c*) Accounts.

Question 53.—Do you consider that the probationer's course of instruction can best be spent in England or in India?

Question 54.—What is your opinion of a proposal to start, at some suitable place in India, a college for the training of probationers of the Indian Civil Service and possibly of other Indian services recruited in England?

Question 55.—What is your opinion of a proposal that each Provincial Government should arrange for the training of probationers by suitable courses of instruction for the whole or portions of the first two years of service at some suitable centre?

Question 56.—In the report of the Treasury Committee appointed to consider the organisation of Oriental studies in London (1909), the view is taken that the preliminary training in Oriental languages and in law required by probationers can be given better in England than in India, because of the difficulties which junior civilians would experience in learning these subjects in India, the lack of good teachers in Indian district head-quarters, the difficulty of even good Indian teachers appreciating the European student's point of view, and the difficulty of arduous study in a tropical climate. Do you consider that these objections could be met by a suitable scheme of instruction in India?

Question 57.—If you have recommended the introduction of any scheme of direct recruitment in India for "Natives of India," whether in lieu of or supplementary to the system of recruitment in England, please state what system of probation you recommend for such officers.

Question 71.—Please add such remarks as you may desire to offer on any points relating to the system of probation and training for the Indian Civil Service which are not covered by your answers to the foregoing questions.

CONDITIONS OF SERVICE.

Question 72.—The present theory underlying the conditions of service in the Indian Civil Service is that—

(*a*) the members of the service should have sufficient training in subordinate or inferior appointments before they are called upon to discharge the duties of higher ones; and

(*b*) that they should, throughout the whole period of their service, have sufficient salaries and sufficiently responsible duties.

To secure these objects the number of posts, called technically "superior" posts, carrying a salary of over Rs. 1,000 *per mensem* is ascertained, and it is endeavoured to recruit only sufficient officers to make it probable that each officer will find himself officiating with practical permanency in at least the lowest of those appointments after the completion of eight years' service. Do you accept this system? If so, do you consider that the period of eight years is suitable, or do you recommend any change? What alteration (if any) would be necessary if the age of recruitment were lowered?

Question 73.—It is also part of the existing system that officers of over two but under eight years' completed service should fill, with practical permanency in the ordinary course of promotion, charges of minor responsibility, called technically "inferior" posts, and should be drawing pay at rates above that of the lowest grade, but not exceeding Rs. 1,000 *per mensem*. Do you accept this as a suitable arrangement? If not, what alteration would you suggest, and for what reasons?

Question 74.—Please show in a tabular statement for the last five years, quarter by quarter, with footnotes, giving the names, the total nett number of officers who have failed to obtain promotion in accordance with the principles set out in the preceding questions, and say whether any inconvenience, and, if so, what, has been caused thereby to the Administration.

Question 75.—Please now see the statement marked AA and the list marked—

Madras = A,
Bombay = B,
Bengal = C,
United Provinces = D,
Punjab = E,
Burma = F,
Bihar and Orissa = G,
Central Provinces and Berar = H,
Assam = I,

which have been reproduced in Appendix VII to these questions and say whether they are correct for your province. If not, please state what amendments are necessary.

Question 76.—Is any difficulty experienced by the Administration in working with the number of superior posts shown in the list for your province? Do all the posts entered as superior carry a salary of more than Rs. 1,000 *per mensem*, and are they all such as are ordinarily held by officers in the Indian Civil Service? If not, what changes, if any, do you suggest?

Question 77.—Does the number of superior posts shown as held directly under the Government of India correspond with the actual experience of the last five years? If not, please give particulars of the discrepancies, and say whether you consider any change of practice in this respect to be desirable. Attention is invited in this connexion to List J in Appendix VII to these questions.

Question 78.—Does the number of superior posts allowed for temporary appointments and deputations correspond with the actual experience of (say) the last five years? If not, please give particulars of the discrepancies and say whether you consider any change of practice in this respect to be desirable?

Question 79.—Does the arrangement by which officers, recruited against temporary superior posts, are shown in the lowest grade, work satisfactorily? If not, what change of practice appears to you to be necessary?

Question 80.—Does the allowance of 39 per cent. on the number of superior posts give the right number of junior officers for the work of the administration of your province? If not, please state what excess or deficiency in your opinion exists, giving your reasons in detail.

Question 81.—Junior officers are considered to be under training during the first two years of their service. Does this approximate to the actual conditions? If not, what alteration is necessary in the percentage of 15·5 allowed for training?

Question 82.—Does the leave allowance of 32·7 per cent. for superior posts, 6·7 per cent. for inferior posts, and ·6 per cent. for training posts, approximate to the actual conditions? If not, please state what alteration is desirable.

Question 83.—Does the annual decremental rate of 4·17 per cent. on the total strength of the service correspond with the actual experience of the last 20 years? If not, please give the actual facts for this period and suggest a suitable figure with reasons in support of the same.

Question 84.—Does the theoretical strength of the service correspond ordinarily with its actual strength? If not, please state the facts and, in particular, offer any remarks which may suggest themselves with regard to the existing discrepancy shown in the statement marked BB which is included in Appendix VII to these questions?

Question 85.—Do you consider that the present system of a quinquennial examination of the conditions of service is adequate to regulate the rate of recruitment and flow of promotion? If not, what alterations do you recommend?

Question 86.—State the principles on which the annual indent for recruitment to the Indian Civil Service is regulated. Do you consider that accurate results are attained thereby? If not, what alterations do you recommend?

Question 88.—To what extent are the functions of the officers of the Executive and Judicial Branches of the Indian Civil Service differentiated? Is any change desirable, and, if so, in what directions?

Question 89.—Have you any other suggestions to make under this head which are not covered by your answers to the above questions and to the questions under the heads relating to salary, leave and pension?

Question 91.—Please give full information regarding the rates of pay and the number of posts in each of the main grades of the service authorized on the 1st April of each of the following years: 1860, 1870, 1880, 1890, 1900 and 1912.

Question 102.—If you recommend any system of time-scale of pay, please describe it, and state what conditions should be laid down in regard to the grant of increments, promotion to superior grades, charge allowances, and other matters of importance? How do you propose to apply such time-scale in provinces where the scale of pay of the Judicial and Executive branches of the Service is different?

Question 103.—If you are in favour of a time-scale of pay, how would you secure that the recruitment of junior officers is restricted to the number likely to be promoted in a reasonable time to posts of independent responsibility, and do you or do you not consider it desirable that all members of the Indian Civil Service should have the prospect of rising to such posts within a fixed time?

Question 104.—Turning now to the case of the Statutory Civilians and officers of the Provincial Civil Services holding listed posts, do you approve of the arrangement by which they draw salary approximately at the rate of two-thirds of the pay drawn in the same posts by members of the Indian Civil Service? Such appointment in each case to be reported to the Secretary of State

Certain offices may be filled up without regard to restrictions prescribed by recited Act

Nos. 1046-1058.

GOVERNMENT OF INDIA (HOME DEPARTMENT).

ESTABLISHMENTS.

Simla, the 19th August 1910.

RESOLUTION.

THE Governor-General in Council has had under consideration the recommendation made by the Royal Commission on Decentralisation at the end of paragraph 128 of their Report on the subject of framing rules for the recruitment of provincial services. The majority of the Commission consider it unnecessary that rules for the recruitment of those services should, as is now the case, require the sanction of the Government of India, and they express the opinion that the functions of that Government should be limited to laying down a few general principles as to eligibility for appointment, etc., on which detailed provincial rules would be based.

2. In the present Resolution the Governor-General in Council proposes to deal only with the provincial civil services (executive and judicial). The case of other provincial services will be separately considered.

3. The present system, under which the previous sanction of the Government of India is required to making or altering the rules for the recruitment of the provincial civil services, was introduced in 1892, as the result of the Report of the Public Service Commission. The Governor-General in Council has now decided to accept in substance the recommendation of the Decentralisation Commission, and is pleased accordingly to invest local Governments with the power to make rules for the recruitment of the provincial civil services without the previous sanction of the Government of India, but subject to their general control. The general conditions which should govern such recruitment have been already fully considered in connection with the inquiries made by the Public Service Commission, and the Governor-General in Council, upon a further consideration of the subject, sees no reason to modify the conclusions then arrived at. It will, however, be convenient to re-state them in the present connection, as follows:—

I. The rules must be adapted, on the one hand, to obtain thoroughly efficient candidates, and, on the other, to secure the due representation in the public service of the different classes of the community.

II. Every candidate for appointment by recruitment must furnish satisfactory evidence—

(*a*) that he is not over 25 years of age, except in the case of Barristers, Advocates, or Pleaders appointed to the judicial branch; these excepted cases will be governed by Article 51 of the Civil Service Regulations;

(*b*) that he has attained a prescribed preliminary standard of general education to be fixed by local Governments with reference to local conditions, the object being to secure men qualified by as high a standard of general education as the conditions and requirements of the local administration permit. In particular, qualification in one or more of the vernacular languages of the province in which he is to be employed is to be insisted on. The vernacular standard should be a high one, involving a thorough knowledge of the language and ability to write and read the written character with facility;

(*c*) that he is of sound health, good physique, and active habits; and

(*d*) that he is of good character.

III. Every person appointed to the provincial civil service by direct recruitment shall be subject to a period of probation or training, during which time his appointment will be probationary only, unless in special cases the local Government declares such probation or training to be unnecessary.

IV. The subjects of Native Princes in alliance with His Majesty shall be eligible for appointment, provided they are qualified in other respects.

V. Admission to the provincial civil service should usually be confined to persons who are natives of the province or have definitely settled in it; in the case of candidates who are not natives of the province recent residence of at least three years in the province should as a general rule be an essential condition of admission. No Barrister, Advocate or Pleader should be appointed as such, unless he has been at least three years actually practising his profession in India and can speak the provincial vernacular.

VI. Europeans who are not statutory natives of India shall be eligible for appointment, if qualified according to the above conditions, with the sanction of the Government of India.

VII. The local Government should reserve to itself the right to make promotion to the superior grades of the provincial civil service without regard to seniority, and seniority alone should not give a claim to appointment to the grade of Rs. 500 a month and higher grades.

VIII. The Government of India retain power in very special cases to make direct appointments to offices in the higher grades of the provincial civil services, and whenever the Government of India exercise this power in the case of judicial officers, it will be confined to Barristers, Advocates, or Pleaders of the High Courts who have shown distinguished ability in the exercise of their profession for not less than ten years and have a thorough knowledge of the vernacular.

IX. No member of the provincial civil service shall be dismissed otherwise than on the result of a judicial or formal departmental enquiry.

4. The Governor-General in Council directs that any change made in the rules from time to time should be forthwith communicated to the Government of India in the Home Department, in order that they may be in a position to exercise effective general control. His Excellency in Council considers it desirable, moreover, that this Resolution should be published by the local Governments and Administrations as part of the respective provincial rules.

ORDER.—Ordered that a copy of this Resolution be forwarded to the local Governments* and Departments of the Government of India† noted on the margin, and to the Hon'ble the Chief Commissioner of the Central Provinces, for information.

APPENDIX A.

No. 1046-1058

GOVERNMENT OF INDIA (HOME DEPARTMENT).

ESTABLISHMENTS.

Simla, the 19th August 1910.

RESOLUTION.

THE Governor-General in Council has had under consideration the recommendation made by the Royal Commission on Decentralisation at the end of paragraph 128 of their Report on the subject of framing rules for the recruitment of provincial services. The majority of the Commission consider it unnecessary that rules for the recruitment of those services should, as is now the case, require the sanction of the Government of India, and they express the opinion that the functions of that Government should be limited to laying down a few general principles as to eligibility for appointment, &c., on which detailed provincial rules would be based.

2. In the present Resolution the Governor-General in Council proposes to deal only with the provincial civil services (executive and judicial). The case of other provincial services will be separately considered.

3. The present system, under which the previous sanction of the Government of India is required to making or altering the rules for the recruitment of the provincial civil services, was introduced in 1892, as the result of the Report of the Public Service Commission. The Governor-General in Council has now decided to accept in substance the recommendation of the Decentralisation Commission, and is pleased accordingly to invest local Governments with the power to make rules for the recruitment of the provincial civil services without the previous sanction of the Government of India, but subject to their general control. The general conditions which should govern such recruitment have been already fully considered in connection with the inquiries made by the Public Service Commission, and the Governor-General in Council, upon a further consideration of the subject, sees no reason to modify the conclusions then arrived at. It will, however, be convenient to re-state them in the present connection, as follows:—

I. The rules must be adapted, on the one hand, to obtain thoroughly efficient candidates, and, on the other, to secure the due representation in the public service of the different classes of the community.

II. Every candidate for appointment by recruitment must furnish satisfactory evidence—

(*a*) that he is not over 25 years of age, except in the case of Barristers, Advocates, or Pleaders appointed to the Judicial branch; these excepted cases will be governed by Article 51 of the Civil Service Regulations;

(*b*) that he has attained a prescribed preliminary standard of general education to be fixed by local Governments with reference to local conditions, the object being to secure men qualified by as high a standard of general education as the conditions and requirements of the local administration permit. In particular, qualification in one or more of the vernacular languages of the province in which he is to be employed is to be insisted on. The vernacular standard should be a high one, involving a thorough knowledge of the language and ability to write and read the written character with facility;

(*c*) that he is of sound health, good physique and active habits; and

(*d*) that he is of good character.

III. Every person appointed to the provincial civil service by direct recruitment shall be subject to a period of probation or training, during which time his appointment will be probationary only, unless in special cases the local Government declares such probation or training to be unnecessary.

IV. The subjects of Native Princes in alliance with His Majesty shall be eligible for appointment, provided they are qualified in other respects.

V. Admission to the provincial civil service should usually be confined to persons who are natives of the province or have definitely settled in it; in the case of candidates who are not natives of the province, recent residence of at least three years in the province should, as a general rule, be an essential condition of admission. No Barrister, Advocate, or Pleader should be appointed as such, unless he has been at least three years actually practising his profession in India and can speak the provincial vernacular.

VI. Europeans who are not statutory natives of India shall be eligible for appointment, if qualified according to the above conditions, with the sanction of the Government of India.

VII. The local Government should reserve to itself the right to make promotion to the superior grades of the provincial civil service without regard to seniority, and seniority alone should not give a claim to appointment to the grade of Rs. 500 a month and higher grades.

VIII. The Government of India retain power in very special cases to make direct appointments to officers in the higher grades of the provincial civil services, and whenever the Government of India exercise this power in the case of judicial officers, it will be confined to Barristers, Advocates, or Pleaders of the High Courts who have shown distinguished ability in the exercise of their profession for not less than ten years and have a thorough knowledge of the vernacular,

REPORT ON THE ADMINISTRATION OF THE ZOOLOGICAL GARDEN, CALCUTTA, FOR THE YEAR 1911-12.

NOTIFICATION.

No. 6238P.—The 4th December 1912.—The following extracts from the Annual Administration Report of the Zoological Garden, Calcutta, for the year 1911-12, and Government letter No. 6237P., dated the 4th December 1912, acknowledging the receipt of the report, are published for general information.

C. J. STEVENSON-MOORE,
Chief Secretary to the Government of Bengal.

THE Honorary Committee have the honour to submit their report for the year ending 31st March 1912,

* * * * * *

* * * * * *

2. STAFF AND ESTABLISHMENT.

Mr. Bijay Krishna Basu continued in charge of the Garden as Superintendent throughout the year, and Babu Somadev Ganguli as Assistant Superintendent.

* * * * * *

3. BUILDINGS.

The following new works were undertaken during the year :—

* * * * * *

(*b*) Kangaroo Enclosure.—The number of Kangaroos and Wallabies, etc., was increasing rapidly by birth and the recreation ground attached to the house was not big enough for all these animals. It was therefore decided to make use of a plot of land lying uselessly to the south of it. It was enclosed with a wire-netting fencing, and the inmates have now plenty of open space for exercise.

(*c*) Small Carnivora House.—The arrangement for watering animals in this house was very defective. During the year under review service-pipes were laid and each compartment was provided with a tank and a continuous supply of water was maintained. A similar arrangement was made in the outdoor enclosure.

(*d*) Burdwan House.—There was no hand-railing in both of the wings of the Burdwan house where the lions were kept, and they were constantly teased by the visitors. To prevent this a hand-railing was placed there.

* * * * * *

(*f*) Reptile House.—A great improvement was effected in the Reptile House. The basins where the crocodiles and monitors were kept had been leaking for some time. The pavement made of glazed tiles was removed and patent stone substituted.

Each cage in the Reptile House was provided with an iron basin sunk in the floor and fed by filtered water-pipes. This arrangement greatly increases the comfort of the inmates.

(*g*) Schwendler House.—This was the most important work carried out during the year. The old outer enclosure was very low and primitive and it was dismantled and a big and lofty circular aviary measuring 171 feet in circumference and 16½ feet in height was constructed. Apart from its greater adaptability to the requirements of the birds the structure is pleasing to the eye and a great improvement on the old house.

* * * * * *

Besides these, a considerable amount of minor repairs were attended to and the roads and paths were repaired and kept in proper condition.

4. FINANCE.

It will appear from the following comparative statement that the financial condition of the Garden is satisfactory: the receipts from visitors steadily increased and amounted to Rs. 48,496-11 as against Rs. 42,018-12 of the previous year, thus showing an increase of Rs. 6,477-15.

The following is a comparative statement of receipts from visitors:—

Year.			Receipts.	
			Rs.	A.
1909-10	...	...	36,088	4
1910-11	...	...	42,018	12
1911-12	...	...	48,496	11

The amounts of income and expenditure are summarised in Appendix A.

5. VISITORS.

The total number of paying visitors to the Garden during the year amounted to 629,151, showing an increase of 92,029 as compared with the previous year. This large attendance may be accounted for by the presence of His Majesty's collection of Nepal animals, by the Hindu festival *Churamoni Yoga* and by the increased attractiveness of the Gardens generally.

Comparative table of visitors during the last three years:—

Year			Visitors.
1909-10	...	...	199,628
1910-11	...	...	537,122
1911-12	...	...	629,151

In addition, a large number of children under four years of age and school children attended by their teachers were admitted free. On the day of the Fancy Fair about 15,000 people entered the Garden. Besides these, 51,154 persons visited the Garden on the free days. A list of free days with the number of visitors is given in Appendix C.

6. EXHIBITION OF HIS MAJESTY THE KING'S COLLECTION OF NEPAL ANIMALS.

The most important event of the year was the exhibition of a fine collection of animals presented to His Majesty by the Nepal Durbar. By the request of the Zoological Society of London, they were accommodated in the Garden prior to their departure to the Zoological Society's Gardens, London. The following is a list of animals:—

Their Majesties visited the Garden on the afternoon of 30th December, accompanied by their Excellencies the Lord and Lady Hardinge. The Royal Visitors were received by the Honorary Secretary and Superintendent who showed them round the Garden. Their Majesties inspected the various animals in the collection and asked many questions as regards their habits and seemed very pleased with the general management of the Garden.

7. GARDEN.

The floral display for which the Garden has for long been well known was extremely successful. New paths and lawns were laid out and much clearing was done throughout the year. A large number of new shrubs and plants were planted. The show of flowering annuals was particularly good and was much appreciated by the public.

CONCLUSION.

The thanks of the Committee are due to the ladies and gentlemen who have added to the collection of the Garden by their donations, a list of which is given in Appendix D. Thanks are also due to those who kindly offered to present animals to the Garden, but whose offers could not be accepted, either because the particular species of animals was already sufficiently well represented, or owing to the want of accommodation.

The Committee also desires to express their sincere thanks to the Officers Commanding 27th Punjabis and 40th Pathans for allowing their bands to play on Sunday evenings without charge.

W. K. DODS.
Honorary Secretary.

F. W. DUKE,
President.

GENERAL CONDITION OF THE ANIMALS.

An outbreak of rinderpest amongst the animals broke out in the month of January, but on account of the prompt measures taken it was completely stamped out before much mischief had been done.

The general health of the mammals, birds and reptiles has been very good, and there have been no important deaths amongst them.

As usual, the treatment and housing of sick animals have been diligently and carefully attended to.

RESOLUTION ON THE ANNUAL IRRIGATION REVENUE REPORT FOR THE YEAR 1911-12.

No. 5569I.A.

GOVERNMENT OF BENGAL.

IRRIGATION DEPARTMENT.

ACCOUNTS.

Dated Calcutta, the 10th December 1912.

RESOLUTION.

READ—

The Annual Irrigation Revenue Report for the year 1911-12.

THE **Major Irrigation Works** in Bengal, as it now stands, are the Midnapur and Hijili Tidal Canals. These works are in operation. The **Minor Works** for *navigation* are the Calcutta and Eastern Canals, the Madaripur Bhil Channel, a portion of the Orissa Coast Canal, the Nadia Rivers and the Gaighatta and Baxi khal, while the work of this class for *irrigation* is the Eden Canal. The Uttarbhag Lock under construction in connection with the Magra Hât Drainage Scheme is treated as a minor work for *navigation*. Training works on the rivers Ganges, Dhaleswari and Buriganga are also classed under this head.

2. The capital outlay on the major works up to the end of March 1912 amounted to Rs. 1,11,07,203. The works constructed for this outlay comprise two weirs, the Midnapur and Panchkura weirs, and 98·75 miles of main and branch canals, of which 69·75 miles provide for both irrigation and navigation and 29 miles for navigation only. There are in addition 254½ miles of distributaries. During the period under review no addition was made to the length of either the canals or the distributaries.

3. The total receipts from the major works amounted to Rs. 2,77,835 and the working expenses to Rs. 2,95,228, the net result being a deficit of Rs. 17,393 against a similar deficit of Rs. 13,322 in the preceding year. This deficit is made up of a net revenue of Rs. 27,417 on the Hijili Tidal Canal and a net loss of Rs. 44,810 on the Midnapur Canal. The deficit in the Midnapur Canal, which generally works at a small profit, is entirely due to an increase in the sum allocated to this canal by the Accountant-General under a new system of distribution of the establishment charges adopted by him. The working of this system is under consideration. The general revenues of these canals, which depend considerably upon receipts from navigation, have suffered of late years from railway competition.

4. The area irrigated during the year was 80,975 acres as compared with 73,940 acres in 1910-11, and an average of 69,401 acres for the triennium ending March 1911. The increase was due to insufficient rainfall—specially at the beginning of the irrigation season.

5. The capital outlay on canals classed as **Minor Works and Navigation** was Rs. 3,94,789 during the year and Rs. 1,14,90,417 to the end of the year. The receipts for the year amounted to Rs. 6,28,513, and the working expenses to Rs. 4,35,635, the net revenue being Rs. 1,92,878.

The financial results of the year and the capital expenditure to date are exhibited in the following table :—

6. **The Calcutta and Eastern Canals** are a series of navigable channels, mostly natural but partly artificial, by which communication is maintained between Calcutta and Eastern Bengal through the Sundarbans. The receipts from navigation tolls amounted to Rs. 4,14,406 as compared with Rs. 3,67,620 in the preceding year. The increase is due to the development of traffic owing to the opening of the Kristopur Canal, about 10 miles in length, from Ultadanga to Bamanghatta. The object of this Canal, which was opened to traffic on the 15th June 1910, is to provide an alternative route for traffic to and from the eastern districts, as the lake channel below the Dhappa lock is rapidly silting up.

7. **The Madaripur Bhil Channel** connecting the Madhumati and Kumar rivers, formerly a portion of the Calcutta and Eastern Canals, now forms a separate project. The capital expenditure during the year was incurred on deepening by dredging the channel through the bhil, which work was almost completed at the end of the year. The total capital outlay to the end of the year amounted to Rs. 28,94,341 against the estimate of Rs. 31,66,876 for the project sanctioned by the Secretary of State. The receipts and working expenses (direct and indirect) during the year were respectively Rs. 1,23,706 and Rs. 7,483 as against Rs. 58,192 and Rs. 8,757 in the year 1910-11. The increase in receipts is due to the development of traffic and this may be attributed to the fact that the route is now approaching completion and is accessible to steamers, flats and boats for the major part of the year.

8. **The work in the Nadia Rivers** consists in the training of the shallow channels by bandals with the object of scouring shoals and maintaining a sufficient depth of water for boat and steamer traffic. This object is only partially attained. The work done is of use however, as it guards against the danger of these offshoots of the Ganges, which combine and afterwards form the Hooghly, closing up altogether in the dry season, and also provides a supply of fresh water for the towns and villages on their banks. The receipts and working expenses were Rs. 33,506 and Rs. 84,821 respectively, as against Rs. 37,037 and Rs. 1,10,883 respectively in the preceding year. The decrease in receipts is due to the falling-off in tolls realised on account of steamers and flats at the Sarupganj toll-station. With the growth of railway lines on either bank of the Bhagirathi, it is not likely that the revenue from these rivers will improve to any material extent.

9. **The Gaighatta and Baxi Khal**, a short channel connecting the rivers Damodar and Rupnarayan, was maintained at an annual cost of Rs. 4,579 against Rs. 1,427 in the previous year. The collection of tolls and fishery rights has been leased out for three years from 1910-11 at Rs. 4,900 per annum as against Rs. 4,500 for the two previous years.

10. The **Eden Canal** was originally constructed for sanitary reasons, but it is now used to some extent for irrigation. It was worked during the year at a profit of Rs. 3,637. The area irrigated during the year was 24,351 acres and was in excess of the previous year's area by 1,238 acres. There is a constant demand for irrigation from this canal. The area under irrigation cannot, however, be materially increased unless a weir is constructed across the Damodar river; a scheme for a weir and canal is under consideration.

11. The **Uttarbhag Lock** is being constructed on the Peali river to give access to the channels constructed under the Magra Hât Drainage Scheme to boats coming from the Sundarbans and eastern rivers. It is expected that the lock will be completed in the year 1913-14.

12. Since 1906-07, training works have been carried out in the Buriganga and Dhaleswari rivers to facilitate navigation and to improve the water-supply of the town of Dacca. The results have been satisfactory and, at the end of the winter season of 1911-12, the rivers were open throughout for country-boat traffic, a result which has not been attained in previous years. Training works are also being carried out on the river Ganges between Digha and Damukdia to maintain a minimum depth of five feet of water over the worst shoals, and at Rampur-Boalia to improve navigation, sanitary conditions and the water-supply of that town. At the mouth of the Bhagirathi river, at its offtake from the Ganges, dredging operations have been conducted since 1908-09 to improve sanitary conditions by an increased flow in the river. Dredging operations were also conducted during the year at the entrance of the Gorai river for the facility of steamer traffic and to improve sanitary conditions.

13. In June 1906, a Standing Committee was appointed to inspect periodically the natural and artificial waterways between Calcutta and Eastern Bengal and to suggest measures of improvement. In order that the usefulness of the Committee might be enhanced, additional members consisting chiefly of mercantile representatives were appointed in July 1911. This Committee met several times and did useful work, but, with the reconstitution of the Province of Bengal from 1st of April 1912, it became necessary to enlarge the scope of the Committee, the whole area of the delta of the Ganges and the Brahmaputra having been brought again under one administration. A new Committee has now been appointed upon which all the chief mercantile interests are represented. The Committee met for the first time on 25th November 1912.

14. The Irrigation Department during the year was in charge of Mr. T. Butler and Mr. C. A. White. The former has since retired and the latter is now the Secretary to the Government of Bihar and Orissa, Irrigation Department. The thanks of Government are due to these officers for their efficient conduct of the affairs of the Department during the year.

ORDER—Ordered that a copy of this Resolution be published in the *Calcutta Gazette*, and that a copy thereof and of its accompaniments be submitted to the Government of India in the Public Works Department and circulated to other Governments and to all Departments and Officers of this Government as usual.

By order of the Governor in Council,

F. A. A. COWLEY,

Deputy Secretary to the Government of Bengal.

Third Forecast of the Cotton Crops of Bengal, 1912-13.

(NOTE. On the average of the five years ending 1910-11, the area under cotton crops in Bengal represents some 03 per cent. of the total area under cotton in India.)

Explanatory.—This report deals with the estimates of area sown with cotton crops (both early and late) and also gives an estimate of their probable outturn.

Character of the season.—The early crop is chiefly grown in the Chittagong Hill Tracts and in the State of Hill Tippera, and also to a small extent in the districts of Bankura and Midnapore. The late crop is grown only in the last two districts. The early crop is generally sown before the rains and the late crop partly before and partly after the rains. Since the publication of the second forecast in October last, weather conditions have not been uniformly favourable for the growth of both early and late cotton: the present condition and prospects of the standing crops are reported to be fair on the whole. Some damage is being done by rats to the early crop in the Chittagong Hill Tracts and has thus affected the outturn considerably.

Area sown.—The total area sown with the early crop is reported to be 49,250 acres against 61,000 acres last year, the decrease being due to scarcity in Hill Tippera and the Chittagong Hill Tracts.

The area sown with late cotton is reported to be 1,900 acres against 2,000 acres last year.

Outturn.—The estimated outturn of early cotton amounts to 14,906 bales against 23,902 bales last year. The outturn of late cotton works out to 1,151 bales against 1,161 bales last year.

Final Estimate of the *Bhadoi* Crops of Bengal, 1912.

(NOTE.—On the average of the five years ending 1910-11, the area under autumn rice in Bengal represents some 7·0 per cent. of the total area under rice in India.)

Character of the season.—In March the rainfall was generally above the average throughout the province. Towards the end of April the fall was much in excess in the Eastern Bengal districts, although not much above the normal in the districts round Calcutta. Sowings were generally normal in most districts. In May and June the rainfall was approximately normal with a tendency to defect. In July the rainfall was below the normal in the Burdwan, Dacca and Chittagong Divisions, and it was in excess in the rest of the province. In August the rainfall continued defective in all the districts of the province except in Midnapore, Dinajpur, Darjeeling, Rangpur, Bogra and Tippera, where the fall was in excess of the normal. The rainfall in September was generally light and much below the normal throughout the province except in the Chittagong Hill Tracts, where the fall was only slightly above the normal. Excessive rain in the early part of the season and insufficient rain subsequently for a time retarded the growth of the crops. Some damage was done by excessive rain and floods on low land in July and by drought in September in parts of the Presidency, Rajshahi and Dacca Divisions. Injury by insect-pests and rats is also reported from Jessore, Khulna and the Chittagong Hill Tracts.

Acreage.—The total area sown this year with *bhadoi* crops is reported to be 6,152,900 acres against 6,299,600 acres (revised) last year, the normal area under the crops being 6,743,000 acres. Of these, 4,993,600 acres are reported to be under *aus* paddy this year against 5,092,200 acres last year. The decrease is reported to be chiefly due to the extension of jute cultivation.

Outturn.—From the Appendix I attached to the report it will be seen that Burdwan reports a crop of 108 per cent. of the normal. Nadia, Midnapore, Howrah and Malda report an average crop. Noakhali, Khulna, Pabna, Murshidabad, Jessore, Rangpur, Chittagong and Bakarganj report a crop between 88 and 98 per cent. Rajshahi, Darjeeling, 24-Parganas, Birbhum, Faridpur, Bankura, Jalpaiguri, Tippera, Mymensingh, Dacca and Hooghly report a crop between 74 and 82 per cent. The three remaining districts, viz., the Chittagong Hill Tracts, Dinajpur and Bogra, only report an outturn between 36 and 58 per cent., the low outturn being attributed chiefly to the damage done by floods, insect-pests and rats.

Comparing the reports issued in the preliminary forecast with those now received, an increase in outturn has been reported in seven districts and a decrease in ten districts.

According to the final estimates of the District Officers, the outturn of the different *bhadoi* crops for the province as a whole works out to 87 per cent. of the normal against the same outturn last year.

Taking 87 per cent. as the outturn of *aus* paddy the gross yield for the province, on the basis of a normal yield of 10 maunds of clean grain per acre, is estimated at 31,918,300 cwts. against 33,296,800 cwts. last year, or a decrease of 4 per cent.

22. If any resolution involves many points, the President may, at his discretion, divide it so that each point may be determined separately.

23. (1) Every question shall be decided by a majority of votes, the President having, in case of an equality of votes, a second or casting vote.

(2) Votes shall be taken by voices, by show of hands, or by division, and shall always be taken by division if any Member so desires.

(3) The President shall determine the method of taking votes by division.

General.

24. (1) The President may assign such time as, with due regard to the public interests, he may consider reasonable for the discussion of resolutions or of any particular resolution.

(2) Every resolution which has not been put to the vote within the time so assigned shall be deemed to have been withdrawn.

25. Every resolution, if carried, shall have effect only as a recommendation to the Governor in Council.

26. When a question has been discussed at a meeting of the Council, or when a resolution has been disallowed under rule 8 or withdrawn under rule 19, no resolution or amendment raising substantially the same question shall be moved within one year.

27. (1) The President shall preserve order, and all points of order shall be decided by him.

(2) No discussion on any point of order shall be allowed unless the President thinks fit to take the opinion of the Council thereon.

(3) Any Member may at any time submit a point of order for the decision of the President.

(4) The President shall have all powers necessary for the purpose of enforcing his decisions.

28. The Governor may appoint a Member of the Council to preside in his place, or in that of the Vice-President, on any occasion on which a matter of general public interest is discussed in the Council.

3. (*a*) Government reserves to itself the right to alter the quantity and class of opium to be offered for sale in each month. No reduction in the quantities to be sold, however, will be made without three months' previous notice.

(*b*) The chests sold for China will be marked in a distinguishing manner and covered by a special permit to be granted by Government.

(*c*) All chests of certified opium sold for export to China must be shipped from Calcutta, on or before the 15th of December 1913, and if they are not so shipped, the option will be cancelled, and permits for their export to China will not be given either in 1913 or at any future time.

4. The following are the conditions of sale. Government reserves to itself the right of altering all or any of these conditions after giving three months' previous notice, and power is reserved to vary the upset prices referred to in condition (ii) at any time without such previous notice :—

(i) The opium will be sold for exportation by sea only, and no certificate will be granted except to cover such export.

(ii) The opium will be ordinarily offered for sale at an upset price of Rs. 2,000 per chest of certified opium and of Rs. 1,200 per chest of uncertified opium and will be sold to the highest bidder above these prices except under the circumstances for which provision is made by clause xiii of these conditions of sale. The bids must advance by Rs. 5 at a time.

(iii) The sale shall commence at the hour of 11 A.M. of the day fixed by previous notification, and shall not be continued after the hour of 5 P.M., but if at that hour any of the lots advertised for sale shall remain unsold, the sale may, at the discretion of Government, be resumed on the next day following (not being Sunday or a public holiday), at the hour of 11 A.M., and so on until the whole of the remaining lots are disposed of; or if the whole quantity advertised shall not be sold on the day appointed, the Government may dispose of the lots which remain on hand at a future sale.

(iv) Each lot shall contain five chests.

(v) A Promissory Note for a sum, calculated according to the scale noted in the margin, shall be taken as a deposit on each lot from the purchaser in the sale-room and before the lot is registered in the sale-book, and all such Promissory Notes shall be redeemed on the part of the purchasers at this office by Bank of Bengal receipts, or by substitution of other public securities of the Government of India, on or before 3-30 P.M., in the afternoon of the fifth day after the sale, provided it does not fall on a Saturday; if it falls on a Saturday, the said notes must be redeemed by 1-30 P.M., or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal receipts or deposit of other public securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such conditions of re-sale as Government shall see fit; and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

DEPOSIT

When the amount bid is less than Rs. 1,200 per chest, Rs. 200 per chest.

On bids of Rs. 1,200 and upwards, but less than Rs. 1,600 per chest, Rs. 300 per chest.

On bids of Rs. 1,600 and upwards, but less than Rs. 2,000 per chest, Rs. 400 per chest.

And so on, Rs. 100 being added to the deposit for every bid additional to the extent of Rs. 400.

(vi) The said Promissory Notes shall be absolutely payable in any event, and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re-sale or expenses thereby incurred, but shall be recoverable whether such re-sale shall be had or not, or whether there shall be a loss on such re-sale or not.

(vii) The Promissory Notes taken on the day of sale under the fifth condition, if remaining unredeemed at 3-30 P.M. of the fifth day following the day of sale, or 1-30 P.M., if the last day falls on a Saturday, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

(viii) No tender of money, Bank of Bengal receipts, or public securities, on account of opium upon which the prescribed deposit may not have been made before the prescribed time in clause (v) on the fifth day following the day of sale, will be afterwards accepted: Provided always that money so subsequently tendered may be taken in payment of the said Promissory Note, but such acceptance of money shall in no way entitle the payer thereof to any right to delivery of the lot or lots in respect whereof the said note was

given, or to any of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such notes or from the additional liability for the loss and expenses of such re-sale as provided for in clauses No. (v) and No. (vi).

(*ix*) The opium advertised for sale shall be paid for not later than by 3-30 P.M. of the fifteenth day from the day of sale, provided it does not fall on a Saturday; if it falls on a Saturday, the opium must be paid for by 1-30 P.M.; and, in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the fifth condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the opium shall be disposed of on account of Government at such time and in such manner as Government shall think fit; and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re-sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re-sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited.

(*x*) Purchasers taking out certificates or orders for the delivery of opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots or of a different number of lots or chests, whether more or less, than the number of lots or chests ordinarily required to be included in each certificate or order.

(*xi*) No deposit of public securities under the fifth of the present conditions will be received in this office except from the party recorded as the purchaser in the sale-book, or his authorized agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order.

(*xii*) The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall on demand render at the time a deposit either in Government of India Notes, Bank of Bengal receipts, or Government securities, a sum equal to the amount for which a Promissory Note would otherwise be taken under the fifth of these conditions.

(*xiii*) With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually by Rs. 5 at a time until a bid is obtained; and the first *bonâ fide* bidder for a lot, after it has been offered for sale in the mode here described, shall be held and declared to be the purchaser of the said lot, and the officer of Government superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum prices of Rs. 2,000 and Rs. 1,200 specified in the second of these conditions.

(*xiv*) The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency opium not exceeding altogether fifteen lots, provided always that there remain a sufficient number of lots of the opium to complete the said fifteen.

(*xv*) In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

(5) The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the office of the Government of Bengal :—

No. 1—Certificate of the opium advertised for sale.
No. 2—Report of the examination of such opium.

(6) The public are hereby informed that in providing the investment of the opium manufactured at the Patna Factory and the opium manufactured at the Ghazipur Factory, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of opium put into each cake. An account of the weight of the drug, when packed at the Patna and Ghazipur Factories, and a statement of the average weight of the chests, indiscriminately taken, for the purpose of comparison, from the despatches on arrival at Calcutta, may be seen on personal application at the office of the Government of Bengal.

(7) Any further information respecting weight or quality of the opium advertised for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on personal application at the office of the Government of Bengal. But, in accordance with established usage, under no circumstances will the Government entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the opium for shipment.

Offg. Secretary.

22. The officer charged with the execution of the warrant may, under the special orders of the Cantonment Authority between sunrise and sunset, break open any outer or inner door or window of a house, in order to make the distress, if he has reasonable ground for believing that such house contains any moveable property belonging to the defaulter, and if, after notification of his authority and purpose and demand of admittance duly made, he cannot otherwise obtain admittance: (Ibid, s. 123.)

Provided that he shall not enter or break open the door of any room appropriated for the zenana or residence of women, which by the usage of the country is considered private, except after three hours' previous notice and opportunity given for the retirement of the women.

If the sum due be not paid with costs before the time fixed for the sale or the warrant be not discharged or suspended by the Cantonment Authority the moveable property seized shall be sold by auction at the time and place specified, in the most public manner possible, and the proceeds shall be applied in discharge of the arrears and costs. (Ibid, s. 124.)

(Ibid, s. 128.)

Distress or sale not unlawful for want of form.

27. No distress or sale made under these rules shall be deemed unlawful, nor shall any party making the same be deemed a trespasser on account of any error, defect or want of form in the bill, notice, summons, warrant of distress, inventory, or other proceeding relating thereto.

(Ibid, s. 129.)

Cantonment Authority may bring suit instead of distraining or on failure of distress.

28. Instead of proceeding by distress and sale, or in case of failure to realize thereby the whole or any part of the tax or rate, the Cantonment Authority may sue the person liable to pay the same in any Court of competent jurisdiction.

(Ibid, s. 130.)

Irrecoverable taxes.

31. The rate imposed shall be paid by the occupiers thereof by quarterly instalments in advance, but no rate shall be leviable until the lamps in the portion of the area to be lighted shall have been lighted; nor shall any rate be leviable for any quarter or portion of a quarter antecedent to such lighting.

(Ibid, s. 312.)

Power to assess owners in certain cases.

32. If any holding shall be occupied by more than one tenant holding severally, or shall be of less annual value than one hundred rupees, it shall be lawful for the Cantonment Authority to recover the rate from the owner of such holding.

(Ibid, s. 313.)

Owners to recover from the occupier rates paid by owner.

33. Whenever any rate shall be recovered from any owner of any holding under the provisions of the last preceding rule, it shall be lawful for such owner, if there shall be but one occupying tenant of such entire holding, to recover from such tenant the entire amount of the rate which shall have been so paid by such owner; and, if there shall be one occupying tenant of a part of such holding or more than one occupying tenant of such holding, then to recover from such tenant, or each of such tenants, such sum as shall bear to the entire amount of rate which may have been so recovered from such owner the same proportion as the value of the portion of such holding in the occupation of such tenant bears to the entire value of such holding subject, however, to the provisions of the next succeeding rule.

34. Every owner who, under the provisions of the last preceding rule, may be entitled to recover any sum from any occupying tenant of any holding or of any portion thereof shall have for the recovery of such sum all such and the same remedies, powers, rights and authorities as if such sum were rent payable to such owner by such tenant in respect of so much of such holding as may be in the occupation of such tenant. (Beng. Act III, 1884, s. 314.)

Owner may recover rate so paid as rent.

35. Every occupier shall be liable to the lighting-rate for the time of his occupation. When any person shall have been an occupier for a part only of any quarter, he shall be liable only for so much of the rate for that quarter as may be proportionate to the number of days during which he shall have been an occupier. (Ibid, s. 315.)

Occupier liable to the rate for time of occupation only.

If he shall have paid the rate in advance, the amount paid in excess of the sum due under this rule shall be refunded.

Excess paid in advance to be refunded.

No such rate shall be chargeable to any person on account of any unoccupied holding for the time during which it may remain unoccupied:

No rate to be charged during vacancy.

Provided always that, when any person ceases to be the occupier of any holding upon which the rate has been assessed, he shall give the Cantonment Authority notice to that effect within seven days from the date of the cessation of his occupancy. If the occupier fail to give such notice within such period, he shall be liable to the rate assessed on such holding for the whole quarter, although he may have occupied for a part only of such quarter; and, in cases to which the provisions of rule 32 apply, the rate assessed on such holding for the whole quarter shall be recoverable from the owner, if such owner has failed to give notice that such holding is unoccupied within seven days from the date on which it ceased to be occupied.

Notice of cessation of occupancy to be given within seven days.

36. When the name of the owner or occupier of any holding is not known, it shall be sufficient to designate him, in any notice served or proceeding held under these rules, as the owner or the occupier of the holding on which the rate is assessed, and without further description. (Ibid, s. 316.)

Unknown owner or occupier how to be designated.

In the case of the fees for the cleansing of latrines the following provisions shall also apply.

37. No fee shall be levied in respect of any shop or place of business which does not contain any privies, or cess-pools, when a fee under these rules is levied from the occupier thereof in respect of his dwelling-house within the Cantonment. (Ibid, s. 322.)

PUBLIC WORKS DEPARTMENT, BENGAL.

DISTRICT ROAD FUND.

Notification dated 13th December 1912.—The subjoined abstract of the annual report and accounts of the District Road Committee of the Darjeeling district for the year 1911-12 is published for general information.

B. K. FINNIMORE,
Secy. to the Govt. of Bengal.

Copy of letter No. 7P.W.t., dated the 16th June 1912 from F. J. MONAHAN, ESQ., I.C.S., *Commissioner of the Rajshahi Division to the Secretary to the Government of Bengal, Public Works Department.*

I HAVE the honour to forward herewith the report on the Administration of the District Road Committee, Darjeeling, together with the annual accounts for the year 1911-12.

Abstract of the Report by the Chairman, District Road Committee of Darjeeling, on the operations of the District Road Fund of the district for the year 1911-12.

[*Vide* letter No. 59R.F., dated 30th May 1912, from J. Lang, Esq., I.C.S., Chairman of the District Road Committee, Darjeeling, to the Commissioner of the Rajshahi Division.]

1. *Working of Committees.*—(*a*) *District Committee.*—There were 18 members of the Committee—6 official and 12 non-official. Four meetings were held during the year. The average attendance was 9·5, or 55·77 per cent., at a meeting.

(*b*) *Kurseong Branch Committee.*—The Committee consisted of 9 members—2 official and 7 non-official. Five meetings were held during the year. The average attendance was 4·2, or 46·66 per cent., at a meeting.

(*c*) *Terai Branch Committee.*—The total number of the members of this Branch Committee was 16, of which 5 were official and 11 non-official. Eight meetings were held during the year. The average attendance was 9, or 56·25 per cent., at a meeting.

2. The year opened with a cash balance of Rs. 14,135-4-8 and an outstanding advance of Rs. 16,019-3-3. The total sum of Rs. 30,154-7-11 was available for expenditure during the year. The total receipts and expenditure during the year (1911-12) were Rs. 70,325-7-9 including outstanding advance of the preceding year and Rs. 39,809-9-3, respectively, leaving a cash balance of Rs. 20,218-7 and an outstanding balance of Rs. 10,297-7-6. The closing balance was more than one quarter's *kist*, mainly owing to the fact that the construction of three new bridges was not taken in hand during the year on account of certain unforeseen events, and a part of the balance, though actually spent during the year, could not be adjusted, no accounts having been received. It is expected that the cash balance will be considerably reduced as estimated in the budget for 1912-13.

RECEIPTS.

3. *Provincial rates.*—The road-cess was levied during the year 1911-12 in the district at the maximum rate of six pies in the rupee as in previous years. A sum of Rs. 25,229-0-3 was collected under the head "Cess on lands" during the year, against Rs. 25,229-10-10 of the preceding year (1910-11).

4. *Contribution.*—(*a*) *Grant from Government.*—The sum of Rs. 7,843-15-1 was credited during the year under this head, including Rs. 5,686 on account of augmenting the resources of the Committee, against Rs. 10,263-13-1 of the preceding year (1910-11). The decrease is mainly due to the arrear collection of the Government share of cost of the Road and Public Works Cess joint establishment and revaluation work in that year (1910-11).

(*b*) A contribution of Rs. 7,098 actually due was received from the Darjeeling Improvement Fund towards communication (Rs. 7,000) and share of the cost of the cess and tauzi joint establishment (Rs. 98) as usual.

(*c*) No contribution from private persons was received during the year.

EXPENDITURE.

5. *Original works.*—Out of the estimated sum of Rs. 19,767, Rs. 2,324-1-9 only was spent under this head during the year. This is due to the Committee's inability to construct the Chenga, Tepu and Boon bridges as already stated in paragraph 2 above.

6. *Repairs.*—The total sum of Rs. 22,968-12-6 as detailed below was spent under this head against Rs. 27,113-11-9 of the preceding year. The decrease is mainly due to non-adjustment of certain amounts spent during the year of which the accounts were not received in due time :—

7. A total length of 9 miles out of 9 miles of metalled roads and 336 miles out of 372 miles of unmetalled roads and 9 miles of village roads were actually repaired by the Committee during the year at a cost of Rs. 1,076, Rs. 21,694 and Rs. 199, the cost per mile being Rs. 119·5, 64·56 and 22·11, respectively. A sum of Rs. 386-9-6 was spent during the year for putting up signboards of new pattern as in the year preceding on certain roads.

8. *Iron railings.*—The Committee decided to put up iron railings gradually on the dangerous parts of hill roads as funds permit. Rupees 62 only was accounted for this year under this head.

9. *Contribution.*—A sum of Rs. 1,200 was paid to the Deputy Conservator of Forests, Darjeeling Division, for widening a forest road from Sreekhola in continuation of Road Cess Road No. 18A (Kanjilia Bejanbari to Subarkam) *viâ* Rembik to Palmajua.

10. *Arboriculture.*—There was no expenditure under this head though a sum of Rs. 500 was provided in the revised budget estimate for 1911-12, which is expected to be spent in 1912-13.

11. *Loans.*—No fresh loan was taken during the year. Rupees 5,069-11-4 as principal and Rs. 2,241-6-4 as interest were paid during this year according to the terms of the loans granted by Government.

12. *Public Works Establishment.*—There was no District Engineer under this District Road Committee during 1911-12. All the works in the hills and most of those in the Terai were as usual executed by the members of the Committees and by the managers of tea gardens and private gentlemen. The thanks of the Committee are due to them for their valuable assistance. The important Road Cess bridges were repaired by the Public Works Department as in the previous years at the cost of the Road Fund. A sum of Rs. 1,186-11-9 including contingencies, or 4·7 per cent. of the total outlay on work, was spent for the entertainment of an overseer and a peon at Siliguri under the Terai Branch Road Committee. The pay of the Overseer was Rs. 60, plus a fixed allowance of Rs. 20 and that of the peon Rs. 7 per mensem.

13. *Administration.*—There were two Branch Committees under the District Road Committee, viz., Kurseong and Terai. Mr. H. T. S. Forrest, the Deputy Commissioner, was *ex-officio* Chairman of the District Road Committee and of the Terai Branch Committee throughout the year. Mr. F. G. E. Piffard, the senior Deputy Collector, was the Vice-Chairman of the District Road Committee during the whole year. Mr. J. C. B. Drake, the Subdivisional Officer of Kurseong, was the Chairman and Vice-Chairman of the Kurseong and Terai Branch Committees respectively for whole of the year 1911-12. Dr. A. D. Humphry, the Civil Medical Officer of Kurseong, was the Vice-Chairman of the Kurseong Branch Committee during 1911-12. The works of the District Committee as well as those of the Branch Committees were performed satisfactorily. The thanks of the Committee are due to the abovenamed gentlemen and other members of the Sadar and Branch Committees for the care and interest they took in their duties.

14. *Audit of Accounts.*—The Examiner of Local Accounts, Bengal, has audited the accounts up to November 1911, and the members of the Audit Sub-Committee have audited for the whole year.

Public Works Department, Bengal.

NOTICE.

FOR maintenance and working of the Barkal Tramway and rolling-stock from Peshkicherra to Chaltatah, 1½ miles long, on the right bank of the river Karnafuli in the Chittagong Hill Tracts—

The Superintendent, Chittagong Hill Tracts, Public Works Department, invites tenders for the above work for a period of 12 months from 1st April 1913. A copy of specification for the said work is given in Schedule A.

A summary of conditions, maximum rates for passengers and luggage, &c., on which the contract will be drawn up can be seen from the subjoined copy of current agreement with contractor Babu Kailash Chandra Mitra, of Svarnagram, Dacca, given in Schedule B.

The undersigned is prepared to consider any subsidy if required for the maintenance of the service.

A list of rolling stock, plant, bridges, buildings and furniture, &c., to be maintained is given in Schedule C.

Each tender must be accompanied by earnest-money in currency notes, amounting to Rs. 25 (twenty-five only), which will be returned in the event of the tender not being accepted, and will be treated as security in the case of the successful tenderer.

Tenders must be forwarded in sealed cover addressed to the Superintendent, Chittagong Hill Tracts, Public Works Department, Rangamati, and must reach him on or before 3rd January 1913. The cover should be endorsed on the outside with the sender's name and address and should be superscribed in red ink "Tender for working and maintenance of the Tramway line, rolling-stock, &c., at Barkal from April 1913, to be opened on the 3rd January 1913." Unless so superscribed they are liable to be returned without consideration.

The Superintendent, Chittagong Hill Tracts, does not bind himself to accept the lowest tender or to assign any reason for non-acceptance.

O. MAWSON, Superintendent, Chittagong Hill Tracts.

Rangamati, the 28th November 1912.

SCHEDULE A.

SPECIFICATION.

FOR working the Barkal Tramway and maintenance of the line and the rolling-rock the contractor will employ a clerk and a staff of (say) six men at Barkal, varying in strength according to the traffic and stress of work on the line.

The contractor will be responsible for keeping waterways and approaches of bridges perfectly clear all through the year and taking care of all bridges and culverts on the Tramway and of Government buildings and for executing petty repairs thereto as occasion arises (save annual repairs to bridges and buildings) and for the safe custody of all furniture and stores at Barkal. All stores used up or rendered unserviceable by the contractor must be replaced at his cost.

Except where the line is fairly level and straight, the trollymen must not get on the trolly especially when it is running down a slope.

Sleepers should be well packed with earth to give an even bearing surface and necessary camber to the rails. The line should be maintained in smooth uniform straight lines and curves, the inside of adjacent railheads being kept in one uniform line (to prevent jolting and breakage of wheels, axle, boxes, &c.), by properly placing the sleepers and keeping the rails thereto.

All worn-out parts of trucks and trollies to be renewed and all damaged or broken parts to be replaced by the contractor. Axle boxes of trucks should always be kept well lubricated with oil, &c., and be maintained in a perfectly clean condition. All wrought-iron or steel work to be painted with red lead paint.

The whole length of the line, about 1½ miles in length, to be kept clear of slips and caused by rain or otherwise and of all jungle growth all through the year for a width of about 60 feet. Similarly the approaches to the rest-houses and to the river in different places on the line should be properly maintained and kept clear of jungle, &c., to the usual width.

A clear width of ten feet for roadway with ordinary barrelled surface of road, side drains and cross drains for free drainage with small cut as outlets or water passage at short intervals from the outer drains to prevent the track being cut away by the drainage should be maintained by widening where necessary with about two feet wide side parapet of earth to prevent accidents and to stop derailed trucks.

After the rains are over, all irregularities or hollows in the roadway should first be levelled off, and when this is done, fresh earth cut from the hill side added so as to make up the road to the prescribed section, that is to give a camber or rise of one in twelve inch the centre of the roadway. The new earthwork must be consolidated by ramming or rolling early in the morning of the day following that on which it is put on the road, so as both to retain the moisture in the soil and to take the advantage of the dew before it evaporates.

N. N. DAS, District Engineer.

The 23rd December 1911.

SCHEDULE B.

In the event of any defects in the maintenance, repairs or proper working, the same can be mended by the said officers at my expense and the contract may also be summarily terminated, all losses being recovered from me.

3. That a list of all line, rolling stock, etc., constituting the undertaking be made and given to me, the same to be delivered to the said Superintendent or the District Engineer on termination of the lease in good order after making all proper allowances for fair wear and tear.
